Spewing Pulp:

The Rise and Fall of Gunns Ltd Quentin Beresford, 2015-02-01 At its peak Gunns Ltd had a market value of 1 billion was listed on the ASX 200 was the largest employer in the state of Tasmania and its largest private landowner Most of its profits came from woodchipping mainly from clear felled old growth forests A pulp mill was central to its expansion plans Its collapse in 2012 was a major national news story as was the arrest of its CEO for insider trading Quentin Beresford illuminates for the first time the dark corners of the Gunns empire He shows it was built on close relationships with state and federal governments political donations and use of the law to intimidate and silence its critics Gunns may have been single minded in its pursuit of a pulp mill in Tasmania s Tamar Valley but it was embedded in an anti democratic and corrupt system of power supported by both main parties business and unions Simmering opposition to Gunns and all it stood for ramped up into an environmental campaign not seen since the Franklin Dam protests Fearless and forensic in its analysis the book shows that Tasmania s decades long quest to industrialise nature fails every time But the collapse of Gunns is the most telling of them all This is a tale that needed telling It is an important case history in environmental campaigning and a must read for anyone interested in fairness and transparency in government Geoffrey Cousins AM businessman and president of the Australian Conservation Foundation

Radical Descent Linda Coleman, 2014-09-07 A rare first hand account by an active participant in the radical underground movements distinguished by the courage and painful honesty so critical in a memoir of this kind Peter Matthiessen In her debut memoir Coleman reveals an intimate account of her choice to join a revolutionary underground guerrilla cell in the 1970 s This turbulent time in America has lessons for all of us in an age of domestic terrorism headlining the news today What begins with her youthful idealism and intent to amend the sins of her blueblood ancestors soon becomes a firestorm of events that includes the activities of a local police death squad the vicious rape of a co worker an attack on a radical bookstore Ku Klux Klan threats friends found to be on the 10 MOST WANTED list her choice to bear arms donate large sums of money and transport explosives for a cadre with increasingly questionable motives The unrelenting series of events that unfold inextricably land her many years later as a witness in one of the longest sedition trials in US history Terrorist or freedom fighter That becomes the readers question to answer just as it becomes Coleman s question as well Winner of the Pushcart Editor s Choice Award

about the stories behind sites they pass every day **Working With Nature** Carl F. Jordan, 2013-10-31 First Published in 1998 This important work looks at an alternative approach to resource production systems taking the view that many environmental problems associated with conventional resource management are avoidable if we work with nature instead of trying to dominate it Jordan argues that achieving sustainability in production systems is best accomplished by encouraging a change in the relationship between humans and nature from one of exploitation through control to one of sustainability through cooperation Savage Texas William W.
