Parkour and the City Jeffrey L. Kidder, 2017-04-20 In the increasingly popular sport of parkour athletes run jump climb flip and vault through city streetscapes resembling urban gymnasts to passersby and awestruck spectators In *Parkour and the City* cultural sociologist Jeffrey L Kidder examines the ways in which this sport involves a creative appropriation of urban spaces as well as a method of everyday risk taking by a youth culture that valorizes individuals who successfully manage danger Parkour's modern development has been tied closely to the growth of the internet The sport is inevitably a YouTube phenomenon making it exemplary of new forms of globalized communication Parkour's dangerous stunts resonate too Kidder contends with a neoliberal ideology that is ambivalent about risk Moreover as a male dominated sport parkour with its glorification of strength and daring reflects contemporary Western notions of masculinity At the same time Kidder writes most athletes known as traceurs or freerunners reject a daredevil label preferring a deliberate reasoned hedging of bets with their own safety rather than a pushing the edge ethos normally associated with extreme sports

Comics in Translation Federico Zanettin, 2015-12-22 Comics are a pervasive art form and an intrinsic part of the cultural fabric of most countries And yet relatively little has been written on the translation of comics *Comics in Translation* attempts to address this gap in the literature and to offer the first and most comprehensive account of various aspects of a diverse range of social practices subsumed under the label comics Focusing on the role played by translation in shaping graphic narratives that appear in various formats different contributors examine various aspects of this popular phenomenon Topics covered include the impact of globalization and localization processes on the ways in which translated comics are embedded in cultures the import of editorial and publishing practices textual strategies adopted in translating comics including the translation of culture and language specific features and the interplay between visual and verbal messages *Comics in translation* examines comics that originate in different cultures belong to quite different genres

and are aimed at readers of different age groups and cultural backgrounds from Disney comics to Art Spiegelman's *Maus* from Katsuhiro Motoko's *Akira* to Goscini and Uderzo's *Asterix*. The contributions are based on first hand research and exemplify a wide range of approaches. Languages covered include English Italian Spanish Arabic French German Japanese and Inuit. Global James Bond Klaus Dodds, Lisa Funnell, 2023-12-20

Global James Bond: Re-Imagining and Transplanting a Popular Culture Icon focuses on the ambivalent yet fascinating interplay between the global and the local in the longest running film franchise in history. It explores how James Bond established itself as a global standard for action spy film making and even as a minor global cinema icon. The franchise subsequently inspired a series of genre bending blending and breaking in local visual and some literary contexts i.e. reimagining and transplanting. The chapters in this collection consider how the world is envisaged in the official series and subsequently reinterpreted on local and regional levels and how investments with alternative meanings might run counter to the dominant representational and geo-political logics of the novels and filmic texts. *Global James Bond* is a starting point for further conversation and exchange over an extraordinary film franchise.
