Local - Global Narratives Renate Rechtien, Karoline Von Oppen, 2007 Over the past decade and a half Germany has experienced a period of political and cultural turbulence which many have attributed to the combined challenges of unification and globalisation In response to growing exposure to global markets politics and migration debates about identity have increasingly been re-nationalised At the same time there has been a notable reappraisal in Germany and in German Studies of the regional and global as spaces for the construction of identity This volume sets out to explore these complex and at times contradictory trends focusing in particular on developments in Germany since the 1970s although chapters treating earlier periods are also included The volume brings together British Irish German Canadian and American scholars working in the field and resulted from a conference organised by Women in German Studies at the University of Bath The first section is primarily concerned with the specifically German concept of locality known as Heimat and its changing relationship with the global Included are explorations of the writings of Kafka Bachmann Johnson Sell Wolf Brinkmann and Jelinek amongst others as well as films by Schlöndorff and Steyerl The second section focuses on the impact of the global on institutions and rituals such as commemoration memorialisation and architecture which have traditionally been influential in shaping national self images Overall this volume concludes that the nature of the relationship to the local has fundamentally changed under the impact of globalisation

IVth International Conference on Pragmalinguistics and Speech Practices Irina Zyubina, 2011-05-25 This book is a collection of articles in English German and French which were presented at the IVth

International Conference on Pragmalinguistics and Speech Practices in Rostov on Don Russia The most interesting and important ideas and researches are represented in this work The book consists of two parts Pragmalinguistics and Speech Practices It will be of interest to philologists teachers and students *Das Sprach-Bild als textuelle Interaktion* Gerd Labrousse, Dick van Stekelenburg, 1999 *Crisis and Critique: Philosophical Analysis and Current Events* Anne Siegetsleitner, Andreas Oberprantacher, Marie-Luisa Frick, Ulrich Metschl, 2021-06-08 Contemporary deep reaching changes whether in financial or real economy in Europe s political conditions in the context of scientific theories in the field of global environmental security or gender relations are also a challenge to philosophy The volume comprises cutting edge scholarly articles from renowned philosophers with various geographical backgrounds and from different philosophical strands Next to investigating general questions as to the relation of philosophy and critique What is philosophical critique and which philosophical concepts of critique are of importance today Where do we need it most Where are its limits the articles focus on issues like theories of democracy and modes of election the roles of emotions in the political realm challenges from a widespread discontent in society to politics and science changes to social identities and different theoretical approaches to social identity formation The book is indispensable for all who are interested in what contemporary philosophy has to say on crucial issues of our time An Anatomy of Literary Nonsense Wim Tigges, 2022-07-04 **Vollständiges Wörterbuch Der Englischen Sprache Für Die Deutschen, The New and Complete Dictionary of the German and English Languages** Johann Ebers, 1793 **Bailey-Fahrenkrüger's Wörterbuch der englischen Sprache** Jonathan Bailey, 1822 Power and Violence in Medieval and Early Modern Theater Cora Dietl, Christoph Schanze, Glenn Ehrstine, 2014-09-17 Theater historians were discussing the particular type of violence displayed by medieval religious plays long before cultural studies discovered violence as a favored topic The present volume which gathers selected papers of the first regional colloquium of the Soci t Internationale pour l tude du Th tre M di val SITM in Germany draws upon recent sociohistorical work on the phenomenon to reconsider past paradigms for the function of violence on the medieval stage including the concept of compassio The authors argue that an important key to the understanding of violence in medieval and early modern theater can be found in the relationship between violentia vis and potestas violence force and power The plays normally do not present violence as an isolated feature but rather as an expression or a means of power They thereby address the legitimacy of power both on the page and in performance The time frame for the plays under discussion c 1470 1570 elides the traditional border line between late medieval Catholicism and the Protestant Reformation The essays clearly reveal that the depiction of violence while altered in character and function by post Reformation confessional debates nonetheless remained a central feature of the new Protestant theater as well **Philosophie als Spiel** Alexander Aichele, 2014-08-29 Was ist Philosophie und was hei t es zu philosophieren Diese Frage die so alt ist wie die Philosophie selbst findet in vorliegender Arbeit eine wie es auf den ersten Blick scheint berraschende Antwort Philosophie ist Spiel also m glicherweise gar keine ernsthafte T tigkeit jedenfalls

nicht Arbeit. Noch überraschender ist jedoch, da diese Antwort auf jene alte Frage ebenso alt ist und in einer bedeutenden Entwicklungslinie des abendländischen Denkens bis in die Moderne hinein entwickelt wird. In dieser Traditionslinie werden die Problembereiche von Welt einerseits und Sprache bzw. Erkennen andererseits durch den Begriff des Spieles verklammert, so dass eine ebenso kritische wie rationale Sichtweise auf die Möglichkeiten der Philosophie entsteht. Diese kritische Tradition des Philosophierens ist wesentlich mit den Namen Platon, Kant und Nietzsche verknüpft. Der Verfasser weist ausgehend von einer begriffshistorischen Grundlegung anhand der Analyse eines Heraklit-Fragments eine ideengeschichtliche Gedankenlinie nach, da Philosophie nicht mehr, aber auch nicht weniger als Spiel sei. Bei der Interpretation zentraler Lehrstücke Platons, Kants Theorie des reinen Geschmacksurteils und Nietzsches Sprach- und Erkenntniskritik. Dabei zeigt sich, dass Nietzsche gerade im Anschluss an die Kritik des Anspruchs auf wahre Erkenntnis und der Möglichkeit von deren Aussage durch die Philosophie bei Platon und Kant diese Kritik radikalisiert und vollendet. Der Spielbegriff gewinnt damit zentrale Bedeutung für ein modernes Philosophieren nach Nietzsche, welches sich zugleich der klassischen Tradition verpflichtet weiß.

Austrian Exodus Edward Timms, Ritchie Robertson, 1995. Following the German annexation of Austria in 1938 and the intensified persecution of the Jews, the British and American governments relaxed their restrictions on immigration and issued entry visas to tens of thousands of German-speaking refugees. The resulting exodus can be seen as the most significant cultural migration of modern times. For the majority of the refugees from National Socialism came from educated backgrounds and they included some of the most gifted members of the cultural elite. The remarkable contributions made by refugees from Austria to the cultural life of the English-speaking world form the subject of this book, which reviews the achievements both of refugee organisations and of outstanding individual authors including Stefan Zweig, Erich Fried, Hilde Spiel, Josef Fraenkel, Felix Pollak and Elias Canetti. Their commitment to the struggle against fascism exemplified by the political cartoons of Joseph Otto Flatter also provided an inspiration for the restoration of Austrian independence after the defeat of Nazi Germany. Wordplay and Metalinguistic / Metadiscursive Reflection Angelika Zirker, Esme Winter-Froemel, 2015-10-16. Wordplay can be seen as a genuine interface phenomenon. It can be found both in everyday communication and in literary texts, and it can fulfil a range of functions: it may be entertaining and comical, it may be used to conceal taboo, and it may influence the way in which the speaker's character is perceived. Moreover, wordplay also reflects on language and communication; it reveals surprising alternative readings and emphasizes the phonetic similarity of linguistic

signs that also points towards relations on the level of content Wordplay unravels characteristics of literary language in everyday communication and opens up the possibility to analyze literary texts from a linguistic perspective The first two volumes of the series The Dynamics of Wordplay therefore aim at bringing together contributions from linguistics and literary studies focusing on theoretical issues such as basic techniques of wordplay and its relationship to genres and discourse traditions These issues are complemented by a series of case studies on the use of wordplay in individual authors and specific historical contexts The contributions offer a fresh look on the multifaceted dynamics of wordplay in different communicative settings *Monatsschrift Für Das Deutsche Geistesleben* ,1900 Language, Truth and Democracy Margit Gaffal,2020-08-24 The aim of this volume is to investigate three fundamental issues of the new millennium language truth and democracy The authors approach the themes from different philosophical perspectives One group of authors examines the use of language and the meaning of concepts from an analytic point of view the ontology of scientific terms and explores the nature of knowledge in general Another group examines truth and types of relation A third group of authors focuses on the current factors influencing our concept of democracy and its legal foundations and makes reference to moral aspects and the question of political responsibility The chapters provide the reader with an overview of current philosophical problems and the answers to these questions will be decisive for future development **Concordance to Wittgenstein's Philosophische Untersuchungen** Hans Kaal,Alastair McKinnon,2023-08-14
