A Companion to Calderón de la Barca Roy Norton, Jonathan Thacker, 2021 The first comprehensive study of Calderón in English Pedro Calderón de la Barca 1600-1681 is one of the most important dramatists many would say the single most important dramatist of the Spanish Golden Age Spain's dominant and most prestigious playwright for much of the seventeenth century his work is still regularly staged and translated influential in more recent times on writers as diverse as Schiller Shelley and Lorca The author of around 120 plays not counting his numerous Corpus Christi autos in a variety of styles Calderón is most famous for his stirring dramas characterized by rhetorically powerful poetry dramatic structures carefully calibrated to produce poignant echoes and the fizzing intellectual energy they apply to the age's ontological eschatological and political preoccupations His plays succeed in combining these perennial concerns with compelling plots subtle enough to defy definitive interpretation As this volume seeks to show however Calderón's comedies deserve equal recognition Too long stereotyped as a dour cerebral conservative this playwright's comic works are as amusing as they are clever This Companion

is the first comprehensive study of Calder n in English It provides a rigorous but readable introduction to the man his work and its legacy Its chapters written by leading international comedia specialists provide an overview of his life explain his intellectual social moral and literary contexts and examine his stagecraft his corpus and his reception both within and without the Hispanic world up to the twenty first century Specific chapters are devoted to La vida es sue o his most famous work which appears on many a university syllabus and to his infamous wife murder plays [A List of Additions Made to the Collections, in the British Museum in the Year\[s\] 1831-\[1835\]](#) British Museum,1837 **Bulletin** USA Office of Experiment Stations,1896 **Catalogue of the Library of the Institution of Civil Engineers ...** Institution of Civil Engineers (Great Britain).
