Spinoza In 90 Minutes:

Spinoza in 90 Minutes Paul Strathern, 1998 A brief and enlightening exploration of Spinoza's life and ideas presented in entertaining and accessible fashion A highly refined appraisal of the philosopher and his work authoritative and clearly presented The European Philosophers from Descartes to Nietzsche Monroe Beardsley, 2002-11-12 Between the earliest and the latest of the works included here we have two hundred and fifty years of vigorous and adventurous philosophizing Monroe Beardsley writes in his Introduction to this collection If the modern period can be only vaguely or arbitrarily bounded it can at least be studied and we can ask whether any dominant themes overall patterns of movement or notable achievements can be found within it This question is one that is best asked by the reader after he has read or read around in these works This Modern Library Paperback Classic also includes a newly updated Bibliography After Many a Summer Dies the Swan Aldous Huxley, 1993-01-01 A Hollywood millionaire with a terror of death whose personal physician happens to be working on a theory of longevity these are the elements of Aldous Huxley's caustic and entertaining satire on man's desire to live indefinitely With his customary wit and intellectual sophistication Huxley pursues his characters in their quest for the eternal finishing on a note of horror This is Mr Huxley's Hollywood novel and you might expect it to be fantastic extravagant crazy and preposterous It is all that and heaven and hell too It is the kind of novel that he is particularly the master of where the most extraordinary and fortuitous events are followed by contemplative little essays on the meaning of life The story is outrageously good New York Times A highly sensational plot that will keep astonishing you to practically the final sentence The New Yorker Mr Huxley's elegant mockery his cruel aptness of phrase the revelations and the ingenious surprises he springs on the reader are those of a master craftsman Mr Huxley is at the top of his form London Times Literary Supplement

Rousseau in 90 Minutes Paul Strathern, 2002 These brief and enlightening explorations of our greatest thinkers bring their ideas to life in entertaining and accessible fashion Philosophical thought is deciphered and made comprehensible and interesting to almost everyone Far from being a novelty each book is a highly refined appraisal of the philosopher and his work authoritative and clearly presented Each of these little books is witty and dramatic and creates a sense of time place and character I cannot think of a better way to introduce oneself and one's friends to Western civilization Katherine A Powers Boston Globe Well written clear and informed they have a breezy wit about them I find them hard to stop reading Richard Bernstein New York Times Witty illuminating and blessedly concise Jim Holt Wall Street Journal **A Fever in Salem** Laurie Winn Carlson, 1999-07-20 This new interpretation of the New England Witch Trials offers an innovative well grounded explanation of witchcraft's link to organic illness While most historians have concentrated on the accused Laurie Winn Carlson focuses on the afflicted Systematically comparing the symptoms recorded in colonial diaries and court records to those of the encephalitis epidemic in the early twentieth century she argues convincingly that the victims suffered from the same disease A unique blend of historical epidemiology and sociology Katrina L Kelner Science Meticulously researched

the author marshalls her arguments with clarity and persuasive force New Yorker **Ape and Essence** Aldous Huxley,1992-08-01 When Aldous Huxley s Brave New World first appeared in 1932 it presented in terms of purest fantasy a society bent on self destruction Few of its outraged critics anticipated the onset of another world war with its Holocaust and atomic ruin In 1948 seeing that the probable shape of his anti utopia had been altered inevitably by the facts of history Huxley wrote Ape and Essence In this savage novel using the form of a film scenario he transports us to the year 2108 The setting is Los Angeles where a rediscovery expedition from New Zealand is trying to make sense of what is left From chief botanist Alfred Poole we learn to our dismay about the twenty second century way of life It was inevitable that Mr Huxley should have written this book one could almost have seen it since Hiroshima is the necessary sequel to Brave New World Alfred Kazin The book has a certain awesome impressiveness its sheer intractable bitterness cannot but affect the reader Time **Philosophy in the West** Eugene F. Bales,2008-10-07 PHILOSOPHY IN THE WEST MEN WOMEN RELIGION SCIENCE This single volume history of philosophy in the West is distinguished by its wide coverage of figures by its inclusion of well over thirty women and by its substantive discussion of the historical background of each epoch Each chapter begins with an overview of the period and concludes with a lengthy bibliography of both primary and secondary texts There is a useful glossary of terms at the end of the book Philosophy in the West is intended as a general guide to those taking courses in the history of philosophy humanities and related areas It will also be of interest to those in the fields of theology philosophy feminism and historical studies *Spinoza's Metaphysics and Its Place in Early Modern Philosophy* Michelle Adrienne Elliott,2003 **Spinoza: Philosophy in an Hour** Paul Strathern,2012-08-02 Philosophy for busy people Read a succinct account of the philosophy of Spinoza in just one hour The Leader's Bookshelf Martin Cohen,2020-10-09 Which books inspired some of the world s most successful people and why Come on a journey of literary exploration and find out how books can impact your life It turns out that the life stories of many famous people start out with a particular book that inspired them when young Here Martin Cohen explores the lives of some remarkable people inventors scientists business gurus and political leaders and the books that have challenged inspired and influenced them And so exploring the ideas dreams and inspirations that this diverse group shared is at the heart of this book too Inspiration in particular is the thread that ties together individuals with characters and backgrounds as diverse as Jane Goodall and Barack Obama Malcolm X and Judge Clarence Thomas Oprah Winfrey and Malala Yousafzai Rachel Carson and Frans Lanting Often behind many tales of achievement lies much more than a collection of smart tactics There are beliefs and values that guide many a grand strategy too And the strategies are often very different which if you think about it shouldn t come as a surprise If there really were just one recipe for success well everyone would be using it already No the thing that unifies these disparate approaches is that they all provided for their owners a kind of conceptual grid onto which a wide range of day to day creative scientific or business practices are able to develop and grow For Sergey Brin and Larry Page the founders of Google for example the grid

was Charles Darwin's notions of natural mutation and iteration With Henry Ford the man who pioneered the method of the assembly line the grid was an obscure ethereal theory of life as a sequence of reincarnations And for both Oprah Winfrey and Steve Jobs the grid was existentialist ideas about the pursuit of authenticity In all these cases a grand indeed often philosophical theory meshed perfectly with a practical business strategy All of these remarkable people and the books that most inspired them are explored in this book
