Dreams Stephanie Jean Clement, 2000-09 A guide to interpreting dreams *Awakening Through Dreams* Nigel Hamilton, 2018-05-08 Most Western approaches to dreams are limited to a psychological paradigm Building on Jung's work which was heavily influenced by the transformative model of alchemy a new multidimensional approach to the process of human transformation through dreams has been developed which recognises the interrelationship of the psychological and the spiritual and works with the mirroring body in service of both In the approach presented here dreams are seen as a mixture of worldly impressions and expressions of our individual spirit which is trying to speak to us through the metaphors

and narrative of our dreams In this way the spiritual comes through the psychological dimension Though it may seem to be a contradiction our dreams hold the key to our awakening and by actively engaging with them we can unlock their potential for initiating and facilitating our own unfoldment This book is about recognising this process when it occurs in dreams and how to work with them in the service of our growth and self realisation
