amazing life and all of his knowledge experience and passion it is his legacy **Earth Jurisprudence** Peter D. Burdon, 2014-09-19 The idea of human dominion over nature has become entrenched by the dominant rights based interpretation of private property Accordingly nature is not attributed any inherent value and becomes merely the matter of a human property relationship **Earth Jurisprudence Private Property and the Environment** explores how an alternative conception of property might be instead grounded in the ecocentric concept of an Earth community Recognising that human beings are deeply interconnected with and dependent on nature this concept is proposed as a standard and measure for human law This book argues that the anthropocentric institution of private property needs to be reconceived drawing on international case law indigenous views of property and the land use practices of agrarian communities Peter Burdon considers how private property can be reformulated in a way that fosters duties towards nature Using the theory of earth jurisprudence as a guide he outlines an alternative ecocentric description of private property as a relationship between and among members of the Earth community This book will appeal to those researching in law justice and ecology as well as anyone pursuing an interest more particularly in earth jurisprudence *Books for the Teen Age* New York Public Library, 1992 The New York Times Index ,1984 **The Bloomsbury Review** ,1985 Has also occasional unnumbered supplements **American Book Publishing Record** ,1985 The Zoological Record ,1987 **Defenders** ,1984 *Scientific and Technical Books and Serials in Print* ,1989 *Medical and Health Care Books and Serials in Print* ,1986
