Spirit Above The Dust:

The Office and Work of the Christian Ministry James Mason Hoppin, 1870 **Pastoral Theology** James Mason Hoppin, 1884 **Writing beyond Prophecy** Martin Kevorkian, 2013-01-02 Writing beyond Prophecy offers a new interpretation of the American Renaissance by drawing attention to a cluster of later rarely studied works by Ralph Waldo Emerson Nathaniel Hawthorne and Herman Melville Identifying a line of writing from Emerson's Conduct of Life to Hawthorne's posthumously published Elixir of Life manuscript to Melville's Clarel A Poem and Pilgrimage in the Holy Land Martin Kevorkian demonstrates how these authors wrestled with their vocational calling Early in their careers these three authors positioned their literary pursuits as an alternative to the ministry By presenting a new revelation and a new set of gospels for the nineteenth century they sought to usurp the authority of the pulpit Later in life each writer came to recognize the audacity of his earlier work creating what Kevorkian characterizes as a literary aftermath Strikingly each author later wrote about the character of a young divinity student torn by a crisis of faith and vocation Writing beyond Prophecy gives a distinctive shape to the late careers of Emerson Hawthorne and Melville and offers a cohesive account of the lingering religious devotion left in the wake of American Romanticism One Foot in the Finite K. L. Evans, 2017-12-15 One Foot in the Finite inspires a radical shift in our view of Melville's project in Moby Dick for its guiding notion is that Melville uses his book to call into question the naturalism that distinguishes the early modern period in Europe Naturalism is not only the idea that reality is exhausted by nature or that there exists a domain of physical entities subject to autonomous laws and unaffected by human ingenuity it also implies a counterpart a world of pretense and deception a domain of mental entities ontologically distinct from physical entities and therefore constituting a different realm To naturalists whales are part of the background of existing objects against which man assembles his various subjective rather arbitrary interpretations But in Moby Dick Melville casts upon the world a more ingenious eye one free of the dualist veil He confronts a basic misconception that the contents of consciousness comprise a different order from physical life He rubs out the dividing line modernity has drawn between the human world of names or concepts and the nonhuman world of plants creatures geological features and natural forces Melville's philosophizing carried by fiction has dramatic consequence It overturns our view of language as a system of mental representations that might turn out to represent falsely Voices; Tormented to Life; A True Story R. J. Donnelly, 2022-11-11 Voices tells of a world where lives are adrift in a sea of flames Such an atmosphere of dancing human remains may be hard to imagine unless it's been lived Like firebrands streaking through a black night sky Spirit things can seem a fantasy to a casual eye As for the telling's in this book they're not a glimpse at EUR but a deep gaze and the encounters of a human soul Born far apart Sue and Bob's lives began as fairytales at EUR but as fairytales will do their dreams bled out and soaked the ground Broken homes drugs alcohol and a confused moral compass led them down treacherous paths Then in 1973 while drifting through the universe their twisting paths collided one day in the dark Bob was a violent atheist who

professed he was god Sue who once aspired to be a Nun now dabbled in mysticism in her parched thirst for truth Then came the days of the Valiant ones who laid siege to our Kingdom for four months Two months in Sue prayed through the night aEUR and when I learned of it I threatened her life God then showed her in a dream my soul now completely void of light and as she watched giant soulless birds began devouring me Two weeks later and close to death alone in my room I prayed and once I asked for forgiveness a voice above me spoke So the days of my dying ended aEUR for the days of miracles had now begun This is a true story

Nature's God and the Nature of Man Joel R. Baseley, 2024-12-26 Nature's God and the Nature of Man presents nature and the nature of man as God's Word the Holy Bible reveals it in Genesis 1:3 The author's recent translating project in Johann Arndt's True Christianity especially his Book 4 treating God's revelation in nature provided him a helpful pre enlightenment world view of God's revealing Himself in nature in stark contrast and opposition to the bold modern assertion by many that science has proven there is no God The children of this divorce of Dame Science from God leaves children confused for whom this book might be a mediation and some comfort 445 pages soft cover

The Bloomsbury Anthology of Transcendental Thought David LaRocca, 2017-02-23 What is real What is the relationship between ideas and objects in the world Is God a concept or a being Is reality a creation of the mind or a power beyond it How does mental experience coordinate with natural laws and material phenomena The Bloomsbury Anthology of Transcendental Thought is the definitive anthology of responses to these and other questions on the nature and limits of human knowledge by philosophers theologians and writers from Plato to Zizek The word transcendental is as prevalent and also as ambiguously defined as the name philosophy itself There are as many uses invocations and allusions to the term as there are definitions on offer Every generation of writers beginning in earnest in ancient Greece and continuing through to our own time has attempted to clarify apply and lay claim to the meaning of transcendental thought Arranged chronologically this anthology reflects the diverse uses the term has been put to over the course of two and a half millennia It lends historical perspective to the abiding importance of the transcendental for philosophical thinking and also some sense of the complexity richness and continued relevance of the contested term The Bloomsbury Anthology of Transcendental Thought the first anthology of its kind offers teachers and students a new viewpoint on the history and present of transcendental thought Its selection of essential engaging excerpts carefully selected edited and introduced brings course materials up to date with the state of the discipline
