The Spirit of Freedom Charles Villa-Vicencio, 1996-10-08 This collection of interviews explores the role of religion in the lives of eminent South Africans who led the struggle against apartheid Nelson Mandela Chris Hani Desmond Tutu Nadine Gordimer and seventeen other political religious and cultural leaders share the beliefs and values that informed the moral positions they adopted often at great cost From all ethnic religious and political backgrounds these men and women have shaped one of the greatest political transformations of the century What emerges from the interviews are reflections on all aspects of life in an embattled country There are stories of the homelands and townships and tales of imprisonment and exile Dedicated communists relate their intense youthful devotion to Christianity Muslim activists discuss the complexity of their relationships with their communities As the respondents grapple with difficult questions about faith politics and authority they expose a more personal picture of their daily lives of their pasts and of the enormous conflicts that arise in a society that continually strains the moral fiber of its citizens Taken together these interviews reveal the many faceted vision that has fueled South Africa s struggle for democracy

Power of Freedom Chih-Ping Chou, Carlos Lin, 2022-10-17 Dr Hu Shih 1891 1962 was one of China s top scholars and diplomats and served as the Republic of China s ambassador to the United States during World War II As early as 1941 Hu Shih warned of the fundamental ideological conflict between dictatorial totalitarianism and democratic systems a view that later became the foundation of the Cold War narrative In the 1950s after Mao s authoritarian regime was established Hu Shih started to analyze the development and nature of Communism delivering a series of lectures and addresses to reveal what he called Stalin s grand strategy for facilitating the International Communist Movement For decades and today to a certain extent Hu Shih s political writings were considered sensitive and even dangerous As a strident critic of the Chinese Communist Party s oligarchical practices he was targeted by the CCP in a concerted national campaign to smear his reputation cast aspersions on his writings and generally destroy any possible influence he might have in China This volume brings together a collection of Hu Shih s most important mostly unpublished English language speeches interviews and commentaries on international politics China U S relations and the International Communist Movement Taken together these works provide an insider s perspective on Sino American relations and the development of the International Communist Movement over the course of the 20th century

The Martyr of Freedom Thomas Treadwell Stone, 1838 Freedom's Empire Laura Anne Doyle, 2008-01-11 A sweeping argument that from the mid seventeenth century until the mid twentieth the English language novel encoded ideas equating race with liberty Shapes of Freedom Peter C. Hodgson, 2012-06-07 Peter C Hodgson explores Hegel s bold vision of history as the progress of the consciousness of freedom Following an introductory chapter on the textual sources the key categories and the modes of writing history that Hegel distinguishes Hodgson presents a new interpretation of Hegel s conception of freedom Freedom is not simply a human production but

takes shape through the interweaving of the divine idea and human passions and such freedom defines the purpose of historical events in the midst of apparent chaos Freedom is also a process that unfolds through stages of historical cultural development and is oriented to an end that occurs within history the kingdom of freedom The purpose and the process of history are tragic however because history is also a slaughterhouse that shatters even the finest human creations and requires a constant rebuilding Hegel's God is not a supreme being or large entity but the true infinite that encompasses the finite History manifests the rule of God providence and it functions as the justification of God theodicy But the God who rules in and is justified by history is a crucified God who takes the suffering anguish and evil of the world into and upon godself accomplishing reconciliation in the midst of ongoing estrangement and inescapable death Shapes of Freedom addresses these themes in the context of present day questions about what they mean and whether they still have validity The Perfection of Freedom D. C. Schindler, 2012-11-08 The Perfection of Freedom seeks to respond to the impoverished conventional notion of freedom through a recovery of an understanding rich with possibilities yet all but forgotten in contemporary thought This understanding developed in different but complementary ways in the German thinkers Schiller Schelling and Hegel connects freedom not exclusively with power and possibility but rather most fundamentally with completion wholeness and actuality What is unique here is specifically the interpretation of freedom in terms of form whether it be aesthetic form Schiller organic form Schelling or social form Hegel Although this book presents serious criticisms of the three philosophers it shows that they open up new avenues for reflection on the notion of freedom avenues that promise to overcome many of the dichotomies that continue to haunt contemporary thought for example between freedom and order freedom and nature and self and other The Perfection of Freedom offers not only a significantly new interpretation of Schiller Schelling and Hegel it also proposes a modernity more organically rooted in the ancient and classical Christian worlds
