INTERPRETATION Ding Weixiang,2023-03-22 Mencius many assertions from virtue Being what I inherently possess to this virtue is what Heaven or Nature gives to me clearly show the basic self consciousness of virtue in pre Qin Confucianism and the confirmation that virtue originates from Heaven or Nature Then what was the reason for the Chinese Axis Age thinkers to unanimously trace the origin of human virtue back to Heaven or Nature and the mandate of Heaven Of course for them the source of human virtue is Heaven or Nature which means that they realized that human being was the limit of cognition Since in their view the problem is itself a question that transcends human cognition or that human understanding can possibly clarify both virtue itself and the source of human virtue being beyond the bounds of human knowledge Namely tracing back virtue to its source is a quest that transcends the capacity of human understanding However those who have been influenced by modern cognitive theory and who constantly explore how Confucian thought emerged as well as how it took shape cannot give a satisfying answer Therefore to trace the emergence and development of Confucianism through the perspective of the survival of agency and the foundation of the survival of agency is not only my own personal interest but also one necessary for clarifying the development of Confucianism and the legitimacy of its existence **Pantheism** C.
