Chinese Revolution Harold Isaacs,2010 The story of contemporary China typically dates back to Mao s 1949 revolution But in this classic work Harold R Isaacs uncovers how workers and peasants struggled for a different kind of revolution one built from the bottom up in the 1920s The defeat of their heroic efforts profoundly shaped the further course of modern Chinese history **Pan-Asianism and the Legacy of the Chinese Revolution** Viren Murthy,2023-10-25 With Xi Jinping s project

to revive the ancient Silk Road for the contemporary era new analyses of pan Asianism have proliferated Most of these narratives focus especially on the rise of China as the natural leader of new capitalist bloc foretelling a shift of power from the West to the East What these approaches lack however is any historical grounding in the thought of influential twentieth century pan Asianists Viren Murthy explores the writings and specific historical contexts of key pan Asianist intellectuals in Japan China and India from the early 1900s to the present to clarify how current discourses distort the very foundations of pan Asianism At the heart of this thinking was the notion of a unity of Asian nations of weak nations becoming powerful and of the Third World confronting the advanced world on equal terms But there was more pan Asianists envisioned a future beyond both imperialism and capitalism That the resurgence of pan Asianist discourse has emerged alongside the dominance of capitalism Murthy argues signals a profound misunderstanding **Proceedings of the 2024 10th International**

Marxism in the Chinese Revolution Arif Dirlik,2005-06-07 Representing a lifetime of research and writing by noted historian Arif Dirlik the essays collected here explore developments in Chinese socialism and the issues that have occupied historians of the Chinese revolution for the past three decades Dirlik engages Chinese socialism critically but with

sympathy for the aspirations of revolutionaries who found the hope of social political and cultural liberation in Communist alternatives to capitalism and the intellectual inspiration to realize their hopes in Marxist theory The book's historical approach to Marxist theory emphasizes its global relevance while avoiding dogmatic and Eurocentric limitations These incisive essays range from the origins of socialism in the early twentieth century through the victory of the Communists in mid century to the virtual abandonment by century's end of any pretense to a socialist revolutionary project by the leadership of the Chinese Communist Party All that remains of the revolution in historical hindsight are memories of its failures and misdeeds but Dirlik retains a critical perspective not just toward the past but also toward the ideological hegemonies of the present Taken together his writings reaffirm the centrality of the revolution to modern Chinese history They also illuminate the fundamental importance of Marxism to grasping the flaws of capitalist modernity despite the fact that in the end the socialist response was unable to transcend the social and ideological horizons of capitalism

Chinese Revolution and Chinese Literature Tao Dongfeng, Rosemary Roberts, Yang Xiaobin, 2009-05-05 This volume has brought together essays to explore analyse and interpret the revolutionary tradition in modern Chinese literature over the past century from various angles The authors examines the bodily or carnal dimension especially the hidden implication of sexual passion in revolutionary literature formulate feminist critiques of the conception of women in literary expressions of revolution explore the function of revolution as historical discourse and in historiographical representation and discuss the reworking of revolutionary classics in recent literary and artistic endeavours Here revolution in history and in literature is conceptualized neither as an unquestionably progressive and creative force for a new world nor an absolutely pejorative concept that necessarily leads to sociopolitical turmoil and tragedy Insofar as postrevolutionary writings cannot but reappropriate the revolutionary spirit as their unavoidable and inseparable traumatic kernel studies in revolutionary literature and culture too go through the zigzag experience of revolution in order to scrutinize its complex implications

Pioneer of the Chinese Revolution ,1990-07 Shimada Kenji is one of Japan's greatest sinologists with formidable scholarly accomplishments in many fields classical Chinese thought Neo Confucianism in China and Japan late Qing thought the 1911 Revolution and Sino Japanese relations This book consists of two long essays touching on one of Shimada's abiding themes the influence of domestic Chinese systems of thought on the development of Chinese revolutionary thought This massive project engages Shimada's greatest strength a profound awareness of and deep study in the history of Chinese philosophy and religion when examining the people and ideas that culminated in the 1911 Revolution and the end of the imperial institution in China Unlike most other scholars Shimada takes his modern protagonists with complete seriousness when they draw on seemingly traditional ideas to justify radical change in the late nineteenth and early twentieth centuries Zhang Binglin the subject of the first essay in this book is arguably the most misunderstood figure among the key revolutionaries of the 1911 period The appearance of this classic essay Zhang Binglin Traditional Chinese Scholar and Revolutionary 1970 marked the first time that Zhang had been assessed as a whole person Shimada explains how Zhang himself saw the inextricable linkage between a wholehearted devotion to traditional Chinese scholarship indeed the very preservation of that tradition and the revolutionary cause Often dismissed as a crackpot brilliant or otherwise or as a perverse intransigent incapable of comprehending the modern world as it passed him by Zhang has never received the kind of attention in the West that his importance warrants The second essay Confucius in the Era of the 1911 Revolution 1978 deals with an issue that has never before received concerted attention How could the figure of Confucius have been deified by the leaders of the 1898 Reform Movement and less than two decades later be excoriated by the leaders of the May Fourth Movement Shimada analyzes the views concerning Confucianism of all the major groups including the Qing government and overseas Chinese in Europe in the period under study 1895 1919 before suggesting some answers to this fascinating question **Staging Chinese Revolution** Xiaomei Chen, 2016-11-08 Staging Chinese Revolution surveys fifty years of
