Gregory,1904 Music in the Flesh Bettina Varwig,2023-07-20 A corporeal history of music making in early modern Europe Music in the Flesh reimagines the lived experiences of music making subjects composers performers listeners in the long seventeenth century There are countless historical testimonies of the powerful effects of music upon the early modern body it is described as moving ravishing painful dangerous curative and miraculous while affecting the circulation of the humors the purification of the blood the dilation of the vessels and pores How were these early modern European bodies constituted that music generated such potent bodily spiritual effects Bettina Varwig argues that early modern music making practices challenge our modern understanding of human nature as a mind body dichotomy Instead they persistently affirm a more integrated anthropology in which body soul and spirit remain inextricably entangled Moving with ease across repertoires and regions sacred and vernacular musics and domestic and public settings Varwig sketches a musical physiology that is as historically illuminating as it is relevant for present day performance This book makes a significant contribution not just to the history of music but also to the history of

the body the senses and the emotions revealing music as a unique access point for reimagining early modern modes of being in the world *Foothills of the Soul* Lad Dietrich,2022-05-31 *Foothills of the Soul* is a series of essays explaining a basic knowledge that lays the foundation for truth of understanding the universe As sunlight stirs a chemical reaction and a chemical reaction creates a mechanical action so begins life The author takes you on a journey of the species and the species leads you to us It is ironic that the species gather on the walls of cave art the art that touches every part of the soul

Church Quarterly Review ,1906 [The Church Quarterly Review](#) ,1906 **Vedic Hymns (Complete)**

Anonymous,2020-09-28 I finished the Preface to the first volume of my translation of the Hymns to the Maruts with the following words The second volume which I am now preparing for Press will contain the remaining hymns addressed to the Maruts The notes will necessarily have to be reduced to smaller dimensions but they must always constitute the more important part in a translation or more truly in a deciphering of Vedic hymns This was written more than twenty years ago but though since that time Vedic scholarship has advanced with giant steps I still hold exactly the same opinion which I held then with regard to the principles that ought to be followed by the first translators of the Veda I hold that they ought to be decipherers and that they are bound to justify every word of their translation in exactly the same manner in which the decipherers of hieroglyphic or cuneiform inscriptions justify every step they take I therefore called my translation the first traduction raisonne I took as an example which I tried to follow though well aware of my inability to reach its excellence the Commentaire sur le Yasna by my friend and teacher Eugene Burnouf Burnouf considered a commentary of 940 pages quarto as by no means excessive for a thorough interpretation of the first chapter of the Zoroastrian Veda and only those unacquainted with the real difficulties of the Rig veda would venture to say that its ancient words and thoughts required a less painstaking elucidation than those of the Avesta In spite of all that has been said and written to the contrary and with every wish to learn from those who think that the difficulties of a translation of Vedic hymns have been unduly exaggerated by me I cannot in the least modify what I said twenty or rather forty years ago that a mere translation of the Veda however accurate intelligible poetical and even beautiful is of absolutely no value for the advancement of Vedic scholarship unless it is followed by precise justificatives that is unless the translator gives his reasons why he has translated every word about which there can be any doubt in his own way and not in any other It is well known that Professor von Roth one of our most eminent Vedic scholars holds the very opposite opinion He declares that a metrical translation is the best commentary and that if he could ever think of a translation of the Rig veda he would throw the chief weight not on the notes but on the translation of the text A translation he writes must speak for itself As a rule it only requires a commentary where it is not directly convincing and where the translator does not feel secure Between opinions so diametrically opposed no compromise seems possible and yet I feel convinced that when we come to discuss any controverted passage Professor von Roth will have to adopt exactly the same principles of translation which I have followed **E.
