Yama, 2020-04-10 What are we to make of direct spiritual experience Of accounts of going to heaven or meeting angels Traditional science would call these hallucinations or delusions Clinical psychologist Dr Mark Yama argues the opposite Through interviews with his patients he shows that underneath the visions and experiences there is a unifying spiritual reality apart from the material world One of the stories recounted in this book is the experience of a woman who could see the future In a spiritual transport she was taken to heaven where truths were revealed to her that she later discovered were already written in Gnostic scripture Another woman lived a life marked by a spiritual sensitivity that defied materialist explanation After she passed away of cancer she came to inhabit the consciousness of another of Dr Yama's patients in the form of a benign possession These stories and many others argue for a deeper reality that places spirituality on an equal footing with the material world *Shining toward Spirit, The book of Divine Love and beginnings Volume II* Zara Borthwick, Nicholas Arnold, 2015-04-14 Shining toward Spirit Vol II introduces communications and messages from spirits who share their experience of living with the Divine Love This book expands our awareness about the mortal soul and the Immortality of the Divine Love our human faith and living a spirit's life in the spirit world The vision of this work will truly inspire the individual who in their pursuit of information about spirits and spirit communication the Divine Love and the spirit world Shining toward Spirit leads to a beginning Shining toward Spirit Volume II continues on shining from Volume I

Metaphors of Depth in German Musical Thought Holly Watkins,2011-09-01 What does it mean to say that music is deeply moving Or that music s aesthetic value derives from its deep structure This study traces the widely employed trope of musical depth to its origins in German language music criticism and analysis From the Romantic aesthetics of E T A Hoffmann to the modernist theories of Arnold Schoenberg metaphors of depth attest to the cross pollination of music with discourses ranging from theology geology and poetics to psychology philosophy and economics The book demonstrates that the persistence of depth metaphors in musicology and music theory today is an outgrowth of their essential role in articulating and transmitting Germanic cultural values While musical depth metaphors have historically served to communicate German nationalist sentiments Watkins shows that an appreciation for the broad connotations of those metaphors opens up exciting new avenues for interpretation Spirit Tutor R.
