Good and Evil Spirits Rudolf Steiner, 2014-09-04 We learn gradually to raise our eyes not only to material existence instead we discover spiritual entities and their actions wherever we look in the universe We get to know the deeds of these spirits We are alive and active and we are within the spiritual entities and their activities Rudolf Steiner This classic series of lectures presents systematic knowledge on many different spiritual entities ranging from the higher hierarchies of angels down to hindering demons Basing his presentation on spiritual scientific research Rudolf Steiner intends to awaken us to the existence of these beings and how they interact with all aspects of our lives Steiner describes how animals plants and minerals have group souls with even an inert stone having a spiritual counterpart in the invisible world The various planets in the cosmos are connected to great spiritual beings and hierarchies too as is the zodiac which is not a static band of fixed stars but is also evolving Steiner gives a remarkable picture of how Christ relates to the zodiacal constellations and to our own higher aspects Spiritual entities are associated with the evolution of earth and the previous stages of its existence and here Steiner elaborates relevant chapters of his book *Occult Science An Outline* explaining how our task on earth is ultimately to develop love rather than wisdom which was the goal of earth's previous stage From cosmic considerations Steiner leads to the spirits of the kingdoms of nature the elemental beings with their four classes connecting to the four elements gnomes undines sylphs and salamanders or earth water air and fire spirits He describes how elemental beings are created by human activities with coercion of the views of others leading to demons lying leading to phantoms and bad social systems to spectres Spirits are also created in the association of humans and animals whilst other spiritual entities connect us with the arts Steiner emphasises the importance of developing and appreciating the arts such as music sculpture architecture painting and poetry for the sake of humanity's future evolution
