Macmillan, 1990-12-14 This volume is an historically based critical evaluation of Freud's personality theory In it the observations Freud made are described and the theoretical ideas he put forward for explaining them are set out The adequacy of Freud's explanations are judged against the logical and scientific standards of Freud's own time The historical perspective will give the reader a sound basis on which to make a judgement about psycho analysis as a method of investigation and a theory of personality as well as a sense of what Freud was about from Freud's own standpoint Freud's endeavour is sited in the psychological and psychiatric context of the time a period not previously given the critical attention it warrants All of Freud's important assumptions and characteristic modes of thought are to be found in this formative period The placement also brings out more clearly the basis of a number of the unresolved problems of contemporary psycho analytic theory such as the place of affect and the instinctual drives the role of the ego and the basis of treatment The core of the evaluation centres on Freud's basic method for gathering data free association a method which is not much written about and hardly ever criticised What is said about it is new and more substantial than the few criticisms that have been made Although a very critical work there is probably no other appraisal which allows Freud and his colleagues and followers to speak so directly for themselves      **New Documents Illustrating Early Christianity** S. Christians are taught early on that God doesn't want us to be happy; he wants us to be holy. In fact, many Christians are laboring under the false notion that God himself is not happy. But nothing could be further from the truth. God does want us to be happy. The Bible is filled with verses that prove that ours is a happy, joy-filled God who not only loves celebrations but also desperately wants his children to be happy. Why else would He go to the lengths He did to ensure our eternal happiness in His presence? We know that we will experience unimaginable joy and happiness in Heaven, but that doesn't mean we can't also experience joy and happiness here on earth. In *Happiness*, noted theologian Randy Alcorn dispels centuries of misconceptions about happiness and provides indisputable proof that God not only wants us to be happy, He commands it. The most definitive study on the subject of happiness to date, this book is a paradigm-shifting wake-up call for the church and Christians everywhere.
