**Human Values** D. Oderberg, T. Chappell, 2004-10-14 In recent decades the revival of natural law theory in modern moral philosophy has been an exciting and important development Human Values brings together an international group of moral philosophers who in various respects share the aims and ideals of natural law ethics In their diverse ways these authors make distinctive and original contributions to the continuing project of developing natural law ethics as a comprehensive treatment of modern ethical theory and practice Science, Worldviews and Education Michael Matthews, 2009-07-14 This book has its origins in a special issue of the journal Science Education Volume 18 Numbers 6 7 2009 The essay by Costas Skordoulis Science and Worldviews in the Marxist Tradition did not appear in that special issue due to a mistake in production scheduling It was published in an earlier issue of the journal Volume 17 Number 6 2008 but has been included in this book version of the special issue As explained in the Introduction the catalyst for the journal special issue was the essay on Science Worldviews and Education submitted to the journal by Hugh G Gauch Jr This was circulated to the other contributors who were asked to write their own contribution in the light of the arguments and literature contained in the paper Hugh made brief Responses and Clarifications after the papers were written However the Tanis Edis article on Islam and my own article on Priestley were processed too late to benefit from Hugh's appraisal The journal is associated with the International History Philosophy and Science Teaching Group which was formed in 1987 The group stages biennial international conferences and occasional regional conferences details can be found at [www.ihpst.org](http://www.ihpst.org) The group though the journal conferences and its electronic newsletter at [www.ihpst.org](http://www.ihpst.org) *Spirituality, Values and Mental Health* Mary Ellen Coyte, Peter Gilbert, Vicky Nicholls, 2007 This edited work addresses policy and practice for professional working in the mental health field and for carers and people with mental health problems themselves enabling them to overcome the stigma often associated with mental health problems and the subject of spirituality *Religious Truth and Identity in an Age of Plurality* Peter Jonkers, Oliver J. Wiertz, 2019-08-05 This book deals with the intellectual aspects of having diverse religious expressions in proximity and the socio political consequences It provides a multi disciplinary perspective on this complex subject cross fertilizing work on religious plurality with truth claims from theologians as well as philosophers from the continental and analytic traditions The book includes three major parts Part 1 explores the ideas around religious diversity and truth Part 2 draws out the epistemic import of religious diversity and Part 3 concludes the volume by examining the practical and social aspects of religious diversity Bringing a transdisciplinary perspective to a topic that remains at the forefront of conversation around the religious life of the world this book will be of great interest to scholars of Religious Studies Theology and the Philosophy of Religion **Wittgenstein and Scientism** Jonathan Beale, Ian James Kidd, 2017-06-14 Wittgenstein criticised prevailing attitudes toward the sciences The target of his criticisms was scientism what he described as the overestimation of science This collection is the first study of Wittgenstein's anti scientism a theme in his work that is clearly central to his

thought yet strikingly neglected by the existing literature The book explores the philosophical basis of Wittgenstein s anti scientism how this anti scientism helps us understand Wittgenstein s philosophical aims and how this underlies his later conception of philosophy and the kind of philosophy he attacked An outstanding team of international contributors articulate and critically assess Wittgenstein s views on scientism and anti scientism making Wittgenstein and Scientism essential reading for students and scholars of Wittgenstein s work on topics as varied as the philosophy of mind and psychology philosophical practice the nature of religious belief and the place of science in modern culture Contributors Jonathan Beale William Child Annalisa Coliva David E Cooper Ian James Kidd James C Klagge Dani le Moyal Sharrock Rupert Read Genia Sch nbaumsfeld Severin Schroeder Benedict Smith and Chon Tejedor
