*English Women* Cynthia Alders, 2024-05-01 The Spiritual Lives and Manuscript Cultures of Eighteenth Century English Women explores the vital and unexplored ways in which women's life writings acted to undergird, guide and indeed shape religious communities. Through an exploration of various significant but understudied personal relationships including mentorship by older women, spiritual friendship and care for nonbiological children, the book demonstrates the multiple ways in which women were active in writing religious communities. The women discussed here belonged to communities that habitually communicated through personal writing. At the same time, their acts of writing were creative acts powerful to build and shape religious communities. These women wrote religious community. The book consists of a series of interweaving case studies and focuses on Catherine Talbot 1721-70, Anne Steele 1717-78 and Ann Bolton 1743-1822 and on their literary interactions with friends and family. Considered together, these subjects and sources allow comparison across denomination: for Talbot was Anglican, Steele a Baptist and Bolton a Methodist. Further, it considers women's life writings as spiritual legacy as manuscripts were preserved by female friends and family members and continued to function in religious communities after the death of their authors. Various strands of enquiry weave through the book: questions of gender and religion themselves inflected by denomination; themes related to life writings and manuscript cultures; and the interplay between the writer as individual and her relationships and communal affiliations. The result is a variegated and highly textured account of eighteenth-century women's spiritual and writing lives.

**Jesus Walks With Me: Uplifting Spiritual and Inspirational Christian Poems and Bible Scriptures**, *Soul Searching: The Religious and Spiritual Lives of American Teenagers* Christian Smith, Dr William R. Kenan Jr, Professor of Sociology, University of Notre Dame, Candidate University of North Carolina, Melina Lundquist Denton, Ph.D., Chapel Hill, USA, 2005-01-25. In innumerable discussions and activities dedicated to better understanding and helping teenagers, one aspect of teenage life is curiously overlooked. Very few such efforts pay serious attention to the role of religion and spirituality in the lives of American adolescents. But many teenagers are very involved in religion. Surveys reveal that 35% attend religious services weekly and another 15% attend at least monthly. 60% say that religious faith is important in their lives. 40% report that they pray daily. 25% say that they have been born again. Teenagers feel good about the congregations they belong to. Some say that faith provides them with guidance and resources for knowing how to live well. What is going on in the religious and spiritual lives of American teenagers? What do they actually believe? What religious practices do they engage in? Do they expect to remain loyal to the faith of their parents? Or are they abandoning traditional religious institutions in search of a new, more authentic spirituality? This book attempts to answer these and related questions as definitively as possible. It reports the findings of The National Study of Youth and Religion, the largest and most detailed such study ever undertaken. The NYSR conducted a nationwide telephone survey of teens and significant caregivers as well as nearly 300 in-depth face-to-face interviews with a sample of the population that was surveyed. The results show that religion and spirituality are indeed very significant in the lives of many American teenagers.

Among many other discoveries they find that teenagers are far more influenced by the religious beliefs and practices of their parents and caregivers than commonly thought. They refute the conventional wisdom that teens are spiritual but not religious. And they confirm that greater religiosity is significantly associated with more positive adolescent life outcomes. This eagerly awaited volume not only provides an unprecedented understanding of adolescent religion and spirituality but because teenagers serve as bellwethers for possible future trends it affords an important and distinctive window through which to observe and assess the current state and future direction of American religion as a whole.
