**Reflections on Communication, Education, Scholarship, and Life** Xin-An Lu,2003-07-06 Our actions in education business and government are no longer guided by conscious ideals but by entrenched practices that are products of expediency indolence and even tyranny Inveterate and ubiquitous problems abound Students hate school Employees dislike their jobs Professors become disinclined toward teaching Boredom and procrastination are everywhere There are promotion requirements such as scholarly publications by college professors that promote nothing and benefit none except to move the person into the next nominal category along the spectrum of the organizational ladder We are plagued with senseless competitive patterns and numerical evaluations that make life a mere matter of rat race the winning of which does not uplift us into the sublimity of humanity but trammel us in the degradation of being rats Essays in this book reflect on and search for answers to widespread and inveterate problems that degenerate modern life into mere livelihood Products in sober solitude rather than in the societal cacophony most essays in the book were written during the author s doctoral studies [What Black and White America Must Do Now](#) Armstrong Williams,2020-08-18 A call to our highest virtues and ideals What Black and White People Must Do Now explores the complexity of race and culture in the United States In his third book renowned conservative entrepreneur author and philanthropist Armstrong Williams discusses his prescription for healing and atonement amidst today s current social upheaval Race and racism are America s original sin and four hundred years later they still plague the nation pitting groups against each other Despite how much time has elapsed many Americans remain befuddled by how to move forward however the time for solutions has come In this book Armstrong Williams recounts his personal story and journey growing up working on his family farm in rural South Carolina leading to an unexpected meeting with the late Senator Strom Thurmond of South Carolina which turned into an unlikely relationship that led him to the halls of power in Washington D C Williams calls for all Americans to stand up to represent America s highest virtues and ideals and he challenges us to look beyond the pale of race for something much deeper **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1972 *Spirituality and Sustainability* Satinder Dhiman,Joan Marques,2016-06-13 This book aims to examine sustainability and spirituality philosophically with ethics as the balancing force The goal is to reveal the important intersection between sustainability and spirituality by using spirituality as the invisible guiding hand in the quest for sustainability The editors and contributors examine old social and economics dilemmas from a new perspective in order to provide alternative approaches to economic and social development The enclosed contributions cover a broad range of topics such as sustainable development and human happiness contemporary spirituality environmental ethics and responsibility and corporate social responsibility In addition the title features real world case

studies and discussion questions that inspire self reflection and theoretical and empirical deliberation in academic courses and business seminars Contemporary approaches to economic and social development have failed to address humankind's abiding need for spiritual growth For material development to be sustainable spiritual advancement must be seen as an integral part of the human development algorithm While the policy makers and governments can play their respective role each one of us has to consciously adopt spirituality and sustainability as a way of life This book will rely on the spiritual power of individuals to heal themselves and the environment Featuring interdisciplinary perspectives in areas such as science marine biology environmental policy cultural studies psychology philosophy ecological economics and ethics this book will provide extensive insights into the complimentary fields of spirituality sustainability and ethics The Chinese Liberal Spirit Xu Fuguan, 2022-04-01 Xu Fuguan 1903 1982 was one of the most important Confucian scholars of the twentieth century A key figure in the Nationalist Party Xu was involved in the Chinese civil war after World War II and in the early years of the Nationalist government in Taiwan He never ceased to believe that democracy was the way forward for the Chinese nation Making his ethical and political thought accessible to English speaking readers for the first time these essays analyze the source of morality and how morality must be realized in democratic government they also provide a sharp contrast to the claim that democracy is not suitable for China or that Confucian government should be meritocracy not democracy They also share the reflections of a man who lived through the Chinese revolution and remained strongly critical of the governments in both the People's Republic of China and Taiwan **Wisdom Tradition** Sebastian Velassery, K. Gopinathan Pillai, 2020-01-01 Wisdom tradition has been instrumental in the evolution and development of core spiritual philosophy of Sanatana dharma and it has played a pivotal role in the continuity and change of Indian culture society and polity Wisdom tradition that has been handed down from generations to generations by Guru Paramparas of India has periodically ignited social awakening and contributed to cultural creativity and social change This tradition which is beyond religion caste gender and race has the power and potential to bind the people of this land with a single string of spirituality beyond religious sectarianism and social segregation The scientific systemisation and dissemination of the amazing wisdom that we have received from ancient Gurus and Rishis and especially its introduction in school and university curriculum shall create a new awareness and pride in our young generation about Indian culture Hence the importance of this volume

*THE POSTMODERN CHALLENGE TO THE THEORY AND PRACTICE OF EDUCATIONAL ADMINISTRATION*

2003-01-01, 2003-01-01 Based on nearly a decade of scholarship this is a highly focused book on the implications of postmodernism for the construction and assessment of theory and practice in educational administration Current ideas of practice are deconstructed from the notions of sound research to the use of national standards in the preparation of educational leaders along with ways of examining and resolving the theory practice gap Part One of the book contains chapters dealing with the rise of postmodernism and describes its broad based dissent from a century of thought in the field

including a penetrating examination of whether the concept of a field itself is viable Part Two of the book explores the many ramifications of postmodernism to practice beginning with ideas concerning educational research These chapters tackle the tough issues of the efficacy of the Interstate Leaders Licensure Standards ISLLC and the national exam as examples of job deskilling and deprofessionalization in the guise of raising standards of preparation of future educational leaders Other chapters deal with deconstructing the popular managerial ideas contained in Stephen Covey s works and dispute Joe Murphy s call for a new center of gravity in the field as reinforcing the status quo Finally the book tackles the issue of the theory practice gap and indicates that new and progressive theories which anticipate problems of practice are what is required to deal with this persistent issue The book contains many helpful exhibits in understanding the issues concerning theory and practice as well as a glossary of terms most commonly found in postmodern discourse This book is designed for college and university programs engaged in the preparation of educational leaders for elementary secondary schools and college administrative positions
