Eng Yuan, 2019-04-15 At one time or another all ministers ask the questions or face the challenges of losing their passion for ministry This author contends that the major contributor to a loss of passion or interest in ministry in general is burnout This book consists of two major sections In the first major section chapters 2 through 4 are about our vertical relationship with God in terms of our passion to serve our spirituality our understanding and practice of rest Sabbath and our compatibility In the second major section chapters 5 through 7 are about our horizontal relationship with others in terms of our confidence our management of conflict with others and our approach to the culture around us *Teacher Burnout in the Public Schools* Anthony Gary Dworkin, 1987-01-01 This unique study is the first large scale sociological analysis of teacher burnout linking it with alienation commitment and turnover in the educational profession In the process of doing so Anthony Gary Dworkin uncovers some startling trends that challenge previous assumptions held by public school administrators Urban public school districts spend up to several million dollars annually on programs intended to rekindle enthusiasm among their teachers hoping thereby to reduce the turnover rates They also assume that enthusiastic teachers will heighten student achievement Yet data presented in *Teacher Burnout in the Public Schools* challenge these suppositions Dworkin's research shows teacher entrapment rather than teacher turnover as the greater problem in education today Teachers are now more likely to spend their entire working lifetime disliking their careers and sometimes their students rather than quitting their jobs and Dworkin proposes that principals more than any other school personnel can do much to break the functional linkage between school

related stress and teacher burnout The author s findings also indicate that burned out teachers pose a minimal threat to the achievement of most children but that they do have an adverse impact on brighter students Teacher Burnout in the Public Schools includes an inventory of supported propositions and three levels of policy recommendations These important policy recommendations suggest substantial organizational changes in the nature of the training of public school teachers in the college educational curriculum in the teacher employment and deployment practices of school districts as well as in the administrative style of school principals

Mechanisms among Assemblies of God World Missionaries Valerie A. Rance, 2021-12-21 Trauma from the fall of Adam and Eve forward impacts human lives in overpowering ways A review of the lives of biblical personalities and missionaries reveals shared traumatic experiences In addition to the stress of cultural adjustment missionaries often live in contexts of violence political unrest economic instability natural disasters and relational conflict The examined biblical personalities faced similar issues yet a majority coped with trauma in ways that led to well being The proposed biblical theory of well being assists missionaries to move deeper in their trust of God by utilizing the coping skills of the biblical personalities including asking God for help lifting up their praise and worship to God standing on a sense of call working with God lamenting venting to God in healthy ways embracing a theology of suffering and accepting assistance from friends and family The adherence to the constructs of this theory protects missionaries from the ravages of psychological trauma by avoiding negative coping and developing positive coping skills that lead to trusting in the only One who gives hope in seemingly hopeless situations
