**Secular Spirituality** Lynn L. Sharp,2006-01-01 Secular Spirituality challenges the traditional dichotomy between Enlightenment reason and religion It follows French romantic socialists and spiritists search for a new spirituality based on reincarnation as a path to progress for individuals and society Leaders like Allan Kardec argued for social reform spiritist groups strove for equality and women mediums challenged gender roles Lynn L Sharp looks closely at what it meant to practice spiritism analysing the movement s social and political critique and explaining the popularity of the new belief She explores points of convergence and conflict in the interplay between spiritism and science spiritism and psychology and spiritism and the Catholic church to argue that the nineteenth century was not as disenchanted as has been thought Secular Spirituality successfully places spiritism within a larger cultural conversation going beyond the leaders of the movement to look at the way spiritism functioned for its followers      **Spiritualism** Joseph McCabe,1920      Metaphysics and the

Sciences in Nineteenth-Century France ,2025-07-22 This volume is the first systematic study of the style of reasoning specific to the field of philosophy in nineteenth century France The chapters analyze the often dispersed responses to the fundamental question of the division of the sciences based on the reciprocal relationships of inclusion or exclusion of adversity or sorority between metaphysics and the positive sciences In line with the arrhythmic progress of the different forms of knowledge these responses renew the Condillacian criticisms of the Cartesian order of the relationships between metaphysics and physics Between a pronounced divorce and a successful marriage this volume traces the philosophical history of the various attempts at divorce or union which as the century progressed resulted in original hybridizations that aspired to define a new and ever problematic French philosophy      **The New Prometheans** Courtenay Raia,2019-12-04

The Society for Psychical Research was established in 1882 to further the scientific study of consciousness but it arose in the surf of a larger cultural need Victorians were on the hunt for self understanding Mesmerists spiritualists and other romantic seekers roamed sunken landscapes of entrancement and when psychology was finally ready to confront these altered states psychical research was adopted as an experimental vanguard Far from a rejected science it was a necessary heterodoxy probing mysteries as diverse as telepathy hypnosis and even s ance phenomena Its investigators sought facts far afield of physical laws evidence of a transcendent irreducible mind The New Prometheans traces the evolution of psychical research through the intertwining biographies of four men chemist Sir William Crookes depth psychologist Frederic Myers ether physicist Sir Oliver Lodge and anthropologist Andrew Lang All past presidents of the society these men brought psychical research beyond academic circles and into the public square making it part of a shared far reaching examination of science

and society By layering their papers textbooks and lectures with more intimate texts like diaries letters and literary compositions Courtenay Raia returns us to a critical juncture in the history of secularization the last great gesture of reconciliation between science and sacred truths
