**An Imperative to Cure** James B. Waldram,2020-11-01

James B Waldram s groundbreaking study *An Imperative to Cure Principles and Practice of Q eqchi Maya Medicine in Belize* explores how our understanding of Indigenous therapeutics changes if we view them as forms of medicine instead of healing Bringing an innovative methodological approach based on fifteen years of ethnographic research Waldram argues that Q eqchi medical practitioners access an extensive body of empirical knowledge and personal clinical experience to diagnose treat and cure patients according to a coherent ontology and set of therapeutic principles Not content to leave the elements of Q eqchi cosmovision to the realm of the imaginary and beyond human reach Q eqchi practitioners conceptualize the world as essentially material and meta material consisting of complex but knowable forces that impact health and well being in real and meaningful ways forces with which Q eqchi practitioners must engage to cure their patients

America Perdomo's practice of medicine demonstrated a strong religious influence that liberals thought were incompatible with a modern secular society. Seldom have the contentions surrounding competitive medical systems been so starkly illuminated as in the case of Perdomo. One of a group of empirics also known as cranderos, bleeders or barbers who offered health care to people in Latin America, Perdomo did not charge for his services. Many people were perplexed by his cures. The drugs that he used allegedly enabled him to perform minor surgery without pain, swelling or excessive bleeding. Supporters wrote numerous testimonials expressing their gratitude for his ability to cure illnesses that had plagued them for years. But Perdomo also had his detractors. Physicians formally trained, *medicos* and those who supported scientific modernization were critical of Perdomo's practice of Hispanic medicine even though it was part of the medical system of the day. Blending Catholic healing beliefs with indigenous and African medical ideologies, Hispanic medicine challenged the innovations occurring in the professional medical community. This volume also makes a singular contribution to a scholarly understanding of the emergence of medical pluralism, tracking the submergence of traditional

**Principles of Multicultural Counseling and Therapy** Uwe P. Gielen, Juris G. Draguns, Jefferson M. Fish, 2008-06-19 In an era of globalization characterized by widespread migration and cultural contacts, psychologists, counselors and other mental health professionals face a unique challenge: how does one practice successfully when working with clients from so many different backgrounds? Gielen, Draguns and Fish argue that an understanding of the general principles of multicultural counseling is of great importance to all practitioners. The lack of this knowledge can have several negative consequences during therapy, including differences in expectations between counselor and client, misdiagnosis of the client's concerns, missed non-verbal cues and the client feeling that she has been misunderstood. This volume focuses on the general nature of cultural influences in counseling rather than on counseling specific ethnic groups. Counseling practices from all over the world, not just those of Western society, are explored. Bringing together the work of a diverse group of international experts, the editors have compiled a volume that is not only concise and teachable but also an essential guidebook for all mental health professionals.

*Psychiatry and the Cults* John A. Saliba, 2018-09-24 Originally published in 1987, this title was compiled in response to the concern in some segments of society about the presence of new religious movements in the West in the second half of the twentieth century. There are lots of psychological questions surrounding cults and the influence they have over their members. These questions have been operative in the accumulation of this annotated bibliography which was intended primarily as a reference guide for psychiatrists and counsellors who advise cult members, ex cult members and their bewildered parents and lawyers who use psychiatric arguments in the courts.
