

Spirituality of the High Middle Ages

Loss of scholarship and Latin only Bibles meant few had access to the Sacred Scriptures, except through clergy.

Once again, God was only accessible through priests and church controlled ritual. Lay participation in the prayer of the Church was reduced to passive observation.

Jesus the wandering Rabbi became Jesus, Christ Pantocrator of heaven and Earth.

Severe restrictions on reception of Eucharist due to obsession with sin and confession; regulations on fasting and sexual activity meant a loss of the power of communio and healing in this "love feast" which became Christ's sacrifice on Calvary all over again.

It became easier to "adore" the host rather than receive it- hence the rise in practices such as Corpus Christi processions, Benediction and Exposition; Adoration of the Blessed Sacrament.

Spirituality Of The Middle Ages

Spirituality Of The Middle Ages:

Culture and Spirituality in Medieval Europe Giles Constable, 1996 A collection of articles concentrating on culture and spirituality in the 11th and 12th centuries The cultural articles are concerned with perceptions of time and the past and entry to religious life The articles on spirituality deal with themes of suffering and attitudes towards the self **Jesus as Mother** Caroline Walker Bynum, 1984-06-13 From the Introduction by Caroline Walker Bynum The opportunity to rethink and republish several of my early articles in combination with a new essay on the thirteenth century has led me to consider the continuity both of argument and of approach that underlies them In one sense their interrelationship is obvious The first two address a question that was more in the forefront of scholarship a dozen years ago than it is today the question of differences among religious orders These two essays set out a method of reading texts for imagery and borrowings as well as for spiritual teaching in order to determine whether individuals who live in different institutional settings hold differing assumptions about the significance of their lives The essays apply the method to the broader question of differences between regular canons and monks and the narrower question of differences between one kind of monk the Cistercians and other religious groups monastic and nonmonastic of the twelfth century The third essay draws on some of the themes of the first two particularly the discussion of canonical and Cistercian conceptions of the individual brother as example to suggest an interpretation of twelfth century religious life as concerned with the nature of groups as well as with affective expression The fourth essay again on Cistercian monks elaborates themes of the first three Its subsidiary goals are to provide further evidence on distinctively Cistercian attitudes and to elaborate the Cistercian ambivalence about vocation that I delineate in the essay on conceptions of community It also raises questions that have now become popular in nonacademic as well as academic circles what significance should we give to the increase of feminine imagery in twelfth century religious writing by males Can we learn anything about distinctively male or female spiritualities from this feminization of language The fifth essay differs from the others in turning to the thirteenth century rather than the twelfth to women rather than men to detailed analysis of many themes in a few thinkers rather than one theme in many writers it is nonetheless based on the conclusions of the earlier studies The sense of monastic vocation and of the priesthood of the authority of God and self and of the significance of gender that I find in the three great mystics of late thirteenth century Helfta can be understood only against the background of the growing twelfth and thirteenth century concern for evangelism and for an approachable God which are the basic themes of the first four essays Such connections between the essays will be clear to anyone who reads them There are however deeper methodological and interpretive continuities among them that I wish to underline here For these studies constitute a plea for an approach to medieval spirituality that is not now and perhaps has never been dominant in medieval scholarship They also provide an interpretation of the religious life of the high Middle Ages that runs against the grain of recent emphases on the emergence of lay spirituality I therefore propose to give as introduction both a discussion of

recent approaches to medieval piety and a short sketch of the religious history of the twelfth and thirteenth centuries emphasizing those themes that are the context for my specific investigations I do not want to be misunderstood In providing here a discussion of approaches to and trends in medieval religion I am not claiming that the studies that follow constitute a general history nor that my method should replace that of social institutional and intellectual historians A handful of Cistercians does not typify the twelfth century nor three nuns the thirteenth Religious imagery on which I concentrate does not tell us how people lived But because these essays approach texts in a way others have not done focus on imagery others have not found important and insist as others have not insisted on comparing groups to other groups e g comparing what is peculiarly male to what is female as well as vice versa I want to call attention to my approach to and my interpretation of the high Middle Ages in the hope of encouraging others to ask similar questions

A History of Christian Spirituality: The spirituality of the Middle Ages, 1968 *Christian Spirituality* Jill Raitt, Bernard McGinn, John Meyendorff, 1987 From the World Spirituality series this is a broad ranging illustrated scholarly treatment of core topics in Christian spirituality focused on the Reformation and pre Reformation periods

Women and Mystical Experience in the Middle Ages Frances Beer, 1992 Original and thought provoking study of three medieval women mystics based on writings and biographical material A wholly feminine voice within Catholicism they express the inexpressible better than any amount of rational thinking about God THE TIMES The three women who are the subject of this fascinating study left a rich legacy of medieval spirituality Frances Beer explores their writings and draws on available historical evidence to bring the experience of all three women closer to a 20th century audience She sees Hildegard's perception of her Creator as informed by the heroic ideal while Mechthild's erotic experience seems to show the influence of the minnesingers Julian's experience of tender intimacy with her Lord demonstrates an egalitarian confidence in the ability of the individual soul to progress towards oneness with the divine Their individual natures are also further revealed through the author's examination of their resolution of a number of theological problems In contrast the works of two medieval men writing for women are also explored

Mental Health, Spirituality, and Religion in the Middle Ages and Early Modern Age Albrecht Classen, 2014-07-28 This volume continues the critical exploration of fundamental issues in the medieval and early modern world here concerning mental health spirituality melancholy mystical visions medicine and well being The contributors who originally had presented their research at a symposium at The University of Arizona in May 2013 explore a wide range of approaches and materials pertinent to these issues taking us from the early Middle Ages to the eighteenth century capping the volume with some reflections on the relevance of religion today

Lapidary sciences matter here as much as medical psychological research combined with literary and art historical approaches The premodern understanding of mental health is not taken as a miraculous panacea for modern problems but the contributors suggest that medieval and early modern writers scientists and artists commanded a considerable amount of

arcane sometimes curious and speculative knowledge that promises to be of value and relevance even for us today once again Modern palliative medicine finds for instance intriguing parallels in medieval word magic and the mystical perspectives encapsulated highly productive alternative perceptions of the macrocosm and microcosm that promise to be insightful and important also for the post modern world *CHRISTIAN SPIRITUALITY*, P. POURRAT,2019 *The Spirituality of the Middle Ages* Jean Leclercq,François Vandenbroucke,Louis Bouyer,1968 **Visions in Late Medieval England** Gwenfair Walters Adams,2007-02-01 Visions were highly popular in the late Middle Ages whether preached as vivid stories from the pulpit illuminated in saint filled manuscripts or experienced during the breathless anticipation of a Mass or eerie darkness of a Yorkshire graveyard This volume is the first to map out the wide range of vision types in late medieval English lay piety Analyzing 1000 visionary accounts gathered from sermon and exempla collections religious devotional works saints legends and lay stories it explores five central dynamics of spirituality that visions shaped and sustained Transactions of Satisfaction visits to and from purgatory and hell Reciprocated Devotion visitations of the saints Spiritual Warfare attacks by demons Supra Sacramental Sight Mass and Passion sightings and Mediated Revelation prophetic visions **History of Christian Spirituality** ,1968
