Split And The Structure Twenty Eight Essays:

The Split and the Structure Rudolf Arnheim, 1996-10-17 Rudolf Arnheim's great forte is his ability to illuminate the perceptual processes that go into the making and reception of artworks painting sculpture architecture and film Over the years his pioneering mode of reading art from a unique scientific philosophic perspective has garnered him an established and devoted audience That audience will take pleasure in Arnheim's most recent collection of essays one that covers a range of topics and includes titles such as Outer Space and Inner Space What Is an Aesthetic Fact As I Saw Children's Art Two Ways of Being Human Consciousness an Island of Images and From Chaos to Wholeness The notion of structure is Arnheim's guide in these explorations Most of the essays examine the nature of structure affirmatively how it comes about its incentives and objectives its celebration of perfection He is interested in how artists grope for structure to shape powerful enlightening images and how a scientist's search for truth is a search for structure Writing with enviable clarity even when deploying complex arguments Arnheim makes it easy and exciting to follow him as he thinks America is not abundantly supplied with public intellectuals such as Rudolf Arnheim to have his writings with us is cause for celebration The word structure appears for good reason in the title of this collection Structure seems to be needed as an arbiter wherever this civilization of ours is split by selfish interests and fighting for either or decisions The essays want to speak with the voice of reason because they want to show how the parts require the whole

The Visual Turn Angela Dalle Vacche, 2003 This collection of essays demonstrates the usefulness of looking at cinema with the analytical methods provided by art theory The Visual Turn is a dialogue between art historians and film theorists from the silent period to the aftermath of World War II

Julian of Norwich Kevin Magill, 2006-07-13 Julian of Norwich was a fourteenth century woman who at the age of thirty

had a series of vivid visions centred around the crucified Christ Twenty years later while living as an anchoress in a church she is believed to have set out these visions in a text called the Showing of Love Going against the current trend to place Julian in the category of mystic a classification which defines her visions as deeply private psychological events this book sets Julian s thinking in the context of a visionary project used to instruct the Christian community Drawing on recent developments in philosophy that debate the objectivity and rationality of vision and perception Kevin J Magill gives full attention to the depth and richness of the visual language and modes of perception in the Showing of Love In particular the book focuses on the ways in which Julian presented her vision to the Christian society around her demonstrating the educative potential of interaction between the isolated anchoress and the wider community Challenging Julian s identification as a mystic and solitary female writer this book argues that Julian engaged in a variety of educative methods oral visual conversational mnemonic alliterative that extend the usefulness of her text

Arnheim for Film and Media Studies Scott Higgins, 2010-10-18 Rudolf Arnheim 1904 2007 was a pioneering figure in film studies best known for his landmark book on silent cinema *Film as Art* He ultimately became more famous as a scholar in the fields of art and art history largely abandoning his theoretical work on cinema However his later aesthetic theories on form perception and emotion should play an important role in contemporary film and media studies In this enlightening new volume in the AFI Film Readers series an international group of leading scholars revisits Arnheim s legacy for film and media studies In fourteen essays the contributors bring Arnheim s later work on the visual arts to bear on film and media while also reassessing the implications of his film theory to help refine our grasp of *Film as Art* and related texts The contributors discuss a broad range topics including Arnheim s film writings in relation to modernism his antipathy to sound as well as color in film the formation of his early ideas on film against the social and political backdrop of the day the wider uses of his methodology and the implications of his work for digital media This is essential reading for any film and media student or scholar seeking to understand the meaning and contemporary impact of Arnheim s foundational work in film theory and aesthetics

Forms of Modernity Rachel Lynn Schmidt, 2011-01-01 It s a critical cliché that Cervantes *Don Quixote* is the first modern novel but this distinction raises two fundamental questions First how does one define a novel And second what is the relationship between this genre and understandings of modernity In *Forms of Modernity* Rachel Schmidt examines how seminal theorists and philosophers have wrestled with the status of Cervantes masterpiece as an exemplary novel in turn contributing to the emergence of key concepts within genre theory Schmidt s discussion covers the views of well known thinkers such as Friedrich Schlegel Jos Ortega y Gasset and Mikhail Bakhtin but also the pivotal contributions of philosophers such as Hermann Cohen and Miguel de Unamuno These theorists examinations of Cervantes s fictional knight errant character point to an ever shifting boundary between the real and the virtual Drawing from both intellectual and literary history *Forms of Modernity* richly explores the development of the categories and theories that we use today to analyze and understand novels

I Am a Monument Aron

Vinegar, 2008 Learning from Las Vegas originally published by the MIT Press in 1972 was one of the most influential and controversial architectural books of its era Thirty five years later it remains a perennial bestseller and a definitive theoretical text Its authors architects Robert Venturi Denise Scott Brown and Steven Izenour famously used the Las Vegas Strip to argue the virtues of the ordinary and ugly above the heroic and original qualities of architectural modernism Learning from Las Vegas not only moved architecture to the center of cultural debates it changed our ideas about what architecture was and could be In this provocative rereading of an iconic text Aron Vinegar argues that Learning from Las Vegas is not only of historical interest but of absolute relevance to current critical debates in architectural and visual culture Vinegar argues that to read Learning from Las Vegas only as an exemplary postmodernist text to understand it for example as a call for pastiche or as ironic provocation is to underestimate its deeper critical and ethical meaning and to miss the underlying dialectic between skepticism and the ordinary expression and the deadpan that runs through the text Vinegar's close attention to the graphic design of Learning from Las Vegas and his fresh interpretations of now canonical images from the book such as the Duck the Decorated Shed and the recommendation for a monument make his book unique Perhaps most revealing is his close analysis of the differences between the first 1972 edition designed for the MIT Press by Muriel Cooper and the revised edition of 1977 which was radically stripped down and largely redesigned by Denise Scott Brown The dialogue between the two editions continues with this book where for the first time the two versions of Learning from Las Vegas are read comparatively Publisher's website
