Spoken Here Travels Among Threatened Languages:

Spoken Here Mark Abley, 2011-04-13 Whether on the other side of the world or in our own backyard languages everywhere are fading into oblivion Mark Abley explores what the human family stands to lose and explains why some endangered languages continue to thrive Within the next couple of generations most of the world's 6000 languages will vanish due mainly to the unstoppable tide of English With an open mind and a well worn passport award winning journalist and poet Mark Abley tells entertaining and vital stories about why languages matter From Oklahoma to Provence aboriginal Australia to Baffin Island the cultures are radically different but the problems of shrinking linguistic and cultural richness are painfully similar Abley's investigation provides a stunning glimpse of the beauty and intricacies of languages like Yiddish and Yuchi Mohawk and Manx Inuktitut and Provençal More importantly it offers a sympathetic and memorable portrait of the people who still speak languages under threat When a language dies out gone too are stories that have been told for centuries unique ways of seeing the world and perhaps even ways of solving problems both large and small Abley believes we must see languages as abundant sources of richness wonder and usefulness And he shows that hope still exists that the determination of even one person can revive a whole language and its culture in the process creating something new changing and alive exactly what languages do best

Parlez-Two on the Chemin CANADA Road Tim Creery, 2011-02 Canada is a land of many languages but only two are official English and French This little book is about the highly unofficial language common to both Parlez Two in One or Parlez Two for short or P2 for shorter Being an amalgam of the country's two mother tongues it is *entre deux mers* From *cole de Ski School* to *rue Rideau Street* to *Fin de Construction* Ends and on to the *Centenaire de Gravelbourg* Centenary and all the way to numerous *Arrêt Stops* and *Sortie Exits* Parlez Two makes Canada a grammarian's pitfall if you take language too seriously as many Canadians do But others don't and they will get a kick out of Parlez Two on the Chemin CANADA Road This little book which the author calls a tract gives the lowdown on the unsuccessful campaign of officialdom and grammarians in *Québec* and in the federal government in Ottawa to douse Parlez Two On the other side the tract cheers on the work of the *Régie de P2* Board which is Canadians' intuitional champion of P2 in overcoming officialdom and doing what comes naturally Numerous quotations from the chair of the *Régie de P2* Board who is known as the *Nobody* serve to bolster the strength of Parlez Two in One By the end of the book you will know a lot more about how to speak Canadian

Minority Languages and Group Identity John Edwards, 2010-01-13 The central concern in this book is the relationship between language and group identity a relationship that is thrown into greatest relief in minority settings Since much of the current interest in minority languages revolves around issues of identity politics language rights and the plight of endangered languages one aim of the book is to summarise and analyse these and other pivotal themes Furthermore since the uniqueness of every language contact situation does not rest upon unique elements or features but rather upon the particular weightings and combinations of features that recur across settings the second aim here is to provide a general descriptive framework within which a wide range of contact settings may be more easily understood The book thus begins with a discussion of such matters as language decline maintenance and revival the dynamics of minority languages and the ecology of language It then offers a typological framework that draws and expands upon previous categorising efforts Finally the book presents four case studies that are both intrinsically interesting and more importantly provide specific illustrations of the generalities discussed earlier

The Language Hoax John H. McWhorter,2014 Japanese has a term that covers both green and blue Russian has separate terms for dark and light blue Does this mean that Russians perceive these colors differently from Japanese people Does language control and limit the way we think This short opinionated book addresses the Sapir Whorf hypothesis which argues that the language we speak shapes the way we perceive the world Linguist John McWhorter argues that while this idea is mesmerizing it is plainly wrong It is language that reflects culture and worldview not the other way around The fact that a language has only one word for eat drink and smoke doesn t mean its speakers don t process the difference between food and beverage and those who use the same word for blue and green perceive those two colors just as vividly as others do McWhorter shows not only how the idea of language as a lens fails but also why we want so badly to believe it we re eager to celebrate diversity by acknowledging the intelligence of peoples who may not think like we do Though well intentioned our belief in this idea poses an obstacle to a better understanding of human nature and even trivializes the people we seek to celebrate The reality that all humans think alike provides another better way for us to acknowledge the intelligence of all peoples
