An Introduction to Advanced Spoken Japanese Inter-university Center for Japanese Language Studies, 1987 *Pamphlet - Dept. of the Army* United States. Department of the Army, 1951 *DOD Pam* United States. Office of Armed Forces Information and Education, *Keigo in Modern Japan* Patricia J. Wetzel, 2004-01-31 Patricia Wetzel offers in this volume a comprehensive examination of a frequently discussed yet much misunderstood aspect of the Japanese language. Keigo or polite language is often viewed as a quaint accessory to Japanese grammar and a relic of Japan's feudal past. Nothing Wetzel contends could be further from the truth. It is true that Japan has a long history of differentiating linguistic form on the basis of social status, psychological detachment, emotional reserve and a host of other context dependent factors. But as is made clear in this unique and broadly framed study, modern keigo consciousness and keigo grammar emerged out of Japan's encounter with Western intellectual trends in the mid to late nineteenth century. Keigo in Modern Japan presents a finely nuanced linguistic and political review of keigo available nowhere else in English. The first chapter outlines the ways in which keigo has been problematized in Western linguistics through the application of structuralist analysis and its offshoots. But keigo's presence in the English language literature does not begin to compare with the place it occupies in the Japanese linguistic canon. Wetzel describes the historical roots and growth of keigo and the popularity of how-to manuals which she contends are less about overt instruction than reinforcing what people already believe.

Exploring Methods and Positions Michael Pye, 2013-03-22 These two volumes present Pye's methodological, theoretical and field based interests in the study of religions. Pye understands the study of religions to be an international enterprise with roots in both European and East Asian culture. This relates to his active role in the International Association for the History of Religions (IAHR) as a former General Secretary and President. The work is presented in seven sections which could be used in teaching assignments. The first volume begins with a lively introduction on Methodological Strategies followed by East Asian Starting Points, a radical attempt to overcome Eurocentrism and Structures and Strategies which

tackles globally significant institutional and ideological questions The second volume presents selected strands in the study of religions Comparing and Contrasting is followed by Tradition and Innovation including reference to specific new religions Transplantation and Syncretism is a definitive package on syncretism and includes new materials from South East Asia Finally Contextual Questions explores wider themes of identity plurality dialogue of religions religious education and peace These show how relevant the study of religions can be when it is distinctly and responsibly defined *Japan Report* ,1969
