NATUROPATHIC PHYSICAL MEDICINE provides a philosophical naturopathic perspective as well as practical clinical applications for manual and physical approaches to health care A wide range of bodywork and movement approaches and modalities are evaluated in relation to their ability to be appropriately used in naturopathic treatment and rehabilitation settings The model of care emphasised in this text recognizes that naturopathically oriented therapeutic interventions usually focus on achieving one or all of the

following enhancement of function so that the person system or part can better self regulate in response to adaptive demands modification or removal of adaptive load factors and symptomatic relief without creation of significant additional adaptive changes

The Therapeutic Pause in Osteopathy and Manual Therapy Louise Tremblay, 2015-11-01 Osteopathy and Bowen therapy in particular emphasises the importance of making therapeutic pauses during treatments But it is not explained why a pause should be incorporated into the treatment session just that it is important to do so This book is based on research which attempted to understand and identify the physiology that might justify the inclusion of pauses during treatment It also looked at how much the pause was used within osteopathic treatment in general
