Sultanahmet, Istanbul's Historic Peninsula Pinar Aykaç, 2022-01-05 This book explores how the museum concept has expanded beyond the boundaries of a single building into the historic city itself through musealization Articulating the musealization of historic cities as a specific urban process the book here presents a study of the

transformation of the Sultanahmet district on Istanbul's historic peninsula which has been the major focus of planning conservation and museological studies in Turkey since the 19th century as the public face of the city. The author aims to offer empirically grounded and context specific insight into the role of museums in the regeneration of historic cities. Musealization as an urban process varies in different geographical cultural and ideological contexts and across different time periods. By discussing the Sultanahmet district as a specific context of yet another city subjected to the musealization process, this book provides further insights into this important global phenomenon.

Studies on Ottoman Society and Culture, 16th-18th Centuries Rhoads Murphey, 2023-05-31. The studies presented in this collection are concerned most particularly with the material conditions of life in the mature Ottoman state of the 16th-18th centuries. They range from the evaluation of sources of livelihood and conditions in the workplace on the one hand to notions of domesticity and organization of the private sphere on the other and deal with the provinces in both the Balkans and in Asia as much as with Istanbul. At the same time the volume aims to illuminate Ottoman imperial institutional forms and norms as they existed in the high imperial era before the rapid change and transformation associated with late imperial times when the empire was more exposed both to global economic forces and external political pressures. This concentration on the relatively stable conditions that prevailed in the empire throughout the bulk of the early modern era ca 1450-ca 1750 provides the reader with an opportunity to assess Ottoman institutional development and observe social and economic organization in their relatively pure state before the double impact of industrialization and increasing Westernization in the late nineteenth century.
