Subalterns and Sovereigns Nandini Sundar,1999 *Subaltern Sovereigns* Peter Berger,2023-05-08 The vast and ancient topic of kingship in India has mostly been studied from the perspectives of rulers and other elites But what constitutes sovereignty viewed from below This book ethnographic and comparative in its essence deals with indigenous conceptualizations of sovereignty taking as its starting point a local proverb that connects the ritual Dasara of the king with festivals performed by his tribal subjects The first part of the book initially introduces some pan Indian ideas of kingship and proceeds to discuss indigenous notions of sovereignty as represented in rituals and myths in the region concerned highland Odisha The second part is devoted to the investigation of the proverbial performances Mainly based on historical sources first the Dasara festival of the king is discussed subsequently the indigenous rituals are described and analyzed which the author ethnographically documented around the turn of the millennium Ultimately the proverb and the rituals constitute the idea of a sacrificial polity in which rulers and ruled share sovereignty in the sense that they are co responsible for the flow of life *Street-Level Democracy: Political Settings at the Margins of Global Power* Jonathan Barker,1999-12-01 Using colourful and detailed case material Street Level Democracy introduces a new method of researching everyday politics It is a wide ranging book that traces the conflicts between global power and local action People in farming communities town mosques city markets and fishing communities suffer the effects of wrenching change but live far from the centres of power From Britain and small town USA to Nigeria India and Nicaragua citizens everywhere grapple with the politics of everyday life *Ground Down by Growth* Alpa Shah,Jens Lerche,Richard Axelby,Dalel Benbabaali,Brendan Donegan,Vikramaditya Thakur,Jayaseelan Raj,2017-11-20 Why has India s astonishing economic growth not reached the people at the bottom of its social and economic hierarchy Travelling the length and breadth of the subcontinent this book shows how India s untouchables and tribals fit into the global economy India s Dalit and Adivasi communities make up a staggering one in twenty five people across the globe and yet they remain amongst the most oppressed Conceived in dialogue with economists Ground Down by Growth reveals the impact of global capitalism on their lives It shows how capitalism entrenches rather than erases social difference and has transformed traditional forms of identity based discrimination into new mechanisms of exploitation and oppression Through studies of the working poor migrant labour and the conjugated oppression of caste tribe region gender and class relations the social inequalities generated by capitalism are exposed *Landscapes and the Law* Gunnel Cederlöf,2019-06-28 Landscapes and the Law is situated at the crossroads of environmental colonial and legal history It examines the role of law in consolidating early colonial rule from the perspective of people s access to nature in forests and hill tracts This major interdisciplinary study is thus concerned with the social history of legal processes and the making of law being as relevant today as it was when first published a decade ago The book is focused equally on the multitude of colliding claims for access to land and resources and the complex ways in which customary rights are redefined and codified

for the purpose of securing and legitimizing colonial sovereign rule Basing her archival and field work on the Nilgiri Hills in South India Gunnel Cederl f explores conflicting perceptions of nature and political visions that are projected onto landscapes and people She traces debates on property and land rights and how the empirical sciences merge with the legal claims justifying land acquisition Popular resistance strategies to such exploitation are analysed and a cross cultural comparison made between early legal processes and social history in India New Zealand and North America

The Art of Anthropology Alfred Gell, 2020-08-20 The Art of Anthropology collects together the most influential of Gell s writings which span the past two decades with a new introductory chapter written by Gell The essays vividly demonstrate Gell s theoretical and empirical interests and his distinctive contribution to several key areas of current anthropological enquiry A central theme of the essays is Gel s highly original exploration of diagrammatic imagery as the site where social relations and cognitive processes converge and crystallise Gell tracks this imagery across studies of tribal market transactions dance forms the iconicity of language and his most recent and groundbreaking analyses of artworks Written with Gell s characteristic fluidity and grace and generously illustrated with Gell s original drawings and diagrams the book will interest art historians sociologists and geographers no less than anthropologists challenging as it does established ideas about exchange representation aesthetics cognition and spatial and temporal processes

Gender Relations in Forest Societies in Asia Govind Kelkar, Dev Nathan, Pierre Walter, 2003-12-06 Extrait de la couverture Of the numerous available studies on forest management in Asia only a few mention the role of women or pay attention to gender relations Even projects are largely designed in terms of households or communities where men are the decision makers and the owners or managers of forests This important volume views gender relations as a crucial factor in the management of land and forests and maintains that the continuing invisibility of women in these areas only compounds poverty shortages and the increased workloads of forest based women Based on fieldwork conducted in several forest societies in China Thailand India and Malaysia the contributors explore the changes in gender relations within indigenous communities from matrilineal and or gender egalitarian systems to ones where male domination is the norm

Climate Change and the Humanities Alexander Elliott, James Cullis, Vinita Damodaran, 2017-11-01 This volume of essays fills a lacunae in the current climate change debate by bringing new perspectives on the role of humanities scholars within this debate The humanities have historically played an important role in the various debates on environment climate and society The past two decades especially have seen a resurfacing of these environmental concerns across humanities disciplines in the wake of what has been termed climate change This book argues that these disciplines should be more confident and vocal in responding to climate change while questioning the way in which the climate change debate is currently being conducted in academic political and social arenas Addressing climate change through the varied approaches of the humanities means re thinking and re evaluating its fundamental assumptions and responses to perceived crisis through the lens of history philosophy and literature The volume aims thus to be a catalyst for

emerging scholarship in this field and to appeal to an academic and popular readership Constructing the Criminal Tribe in Colonial India Henry Schwarz, 2010-02-19 *Constructing the Criminal Tribe in Colonial India* provides a detailed overview of the phenomenon of the criminal tribe in India from the early days of colonial rule to the present. It traces and analyzes historical debates in historiography, anthropology, and criminology. It argues that crime in the colonial context is used as much to control subject populations as to define morally repugnant behavior. It explores how crime evolved as the foil of political legitimacy under military rule. It examines the popular movement that has arisen to reverse the discrimination against the millions of people laboring under the stigma of criminal inheritance, producing a radical culture that contests stereotypes to reclaim their humanity. *Colonial Bureaucracy and Contemporary Citizenship* Yael Berda, 2022-11-17 How do the legacies of colonial bureaucracy continue to shape political life after empire? Tracing the colonial and racialized practices of population classification and restriction of mobility, this book examines how mundane and routine bureaucratic practices shape political life in Israel, Palestine, India, and Cyprus.
