The Oxford Handbook of Contemporary British and Irish Poetry Peter Robinson, 2013-09-26 The Oxford Handbook of Contemporary British and Irish Poetry offers thirty eight chapters of ground breaking research that form a collaborative guide to the many groupings and movements the locations and styles as well as concerns aesthetic political cultural and ethical that have helped shape contemporary poetry in Britain and Ireland The book s introduction offers an anthropological participant observer approach to its variously conflicted subjects while exploring the limits and openness of the contemporary as a shifting and never wholly knowable category The five ensuing sections explore a history of the period s poetic movements its engagement with form technique and the other arts its association with particular locations and places its connection with and difference from poetry in other parts of the world and its circling around such ethical issues as whether poetry can perform actions in the world can atone redress or repair and how its significance is inseparable from acts of evaluation in both poets and readers Though the book is not structured to feature chapters on authors thought to be canonical on the principle that contemporary writers are by definition not yet canonical the volume contains commentary on many prominent poets as well as finding space for its contributors enthusiasms for numerous less familiar figures It has been organized to be read from cover to cover as an ever deepening exploration of a complex field to be read in one or more of its five thematically structured sections or indeed to be read by picking out single chapters or discussions of poets that particularly interest its individual readers

[Movies on Home Ground](#) Ian Craven, 2020-07-13 Movies on Home Ground Explorations in Amateur Cinema offers a critical response to the still under explored mode of amateur cinema as a particular sphere of British film practice Concentrating upon a roughly fifty year period 1930 1980 during which such filmmaking grew rapidly as a significant leisure activity in Britain the volume shows how popular cine assumed distinctive institutional and ideological forms and some remarkable aesthetic emphases grounded in consistent technical and critical apparatuses Although an outline history of such filmmaking is certainly implicit the priority of Movies On Home Ground is to offer a series of overlapping perspectives on amateur movie making with a view to locating such filmmaking as a component of the broader shape of British film culture Emphasis is thus given to institutional contexts technical determinants and the social formations of practising filmmakers as well as to concerns with the construction of amateur outlooks understandings of amateur aesthetics and the remarkable diversity of amateur genericity The anthology thus supplies a text offering support to study courses dealing with the many varieties of non professional participation best understood as truly amateur rather than as independent or alternative filmmaking By granting the amateur a place within the acknowledged range of significant interventions the recognised canon of British filmmaking is widened in fascinating new directions
