Sublime A Reader In British Eighteenth Century Aesthetic Theory:

The Sublime Andrew Ashfield, Peter de Bolla, 1996-08-15 This collection of texts on the Sublime provides the historical context for the foundation and discussion of one of the most important aesthetic debates of the Enlightenment The significance of the Sublime in the eighteenth century ranged across a number of fields literary criticism empirical psychology political economy connoisseurship landscape design and aesthetics painting and the fine arts and moral philosophy and has continued to animate aesthetic and theoretical debates to this day However the unavailability of many of the crucial texts of the founding tradition has resulted in a conception of the Sublime often limited to the definitions of its most famous theorist Edmund Burke Andrew Ashfield and Peter de Bolla's anthology which includes an introduction and notes to each entry offers students and scholars ready access to a much deeper and more complex tradition of writings on the Sublime many of them never before printed in modern editions *The Sublime : a Reader in British Eighteenth-Century Aesthetic Theory* Andrew Ashfield, 1998

The Cambridge History of Literary Criticism: Volume 4, The Eighteenth Century H. B. Nisbet, Claude Rawson, 2005-12-08 This is a comprehensive 1997 account of the history of literary criticism in Britain and Europe between 1660 and 1800 Unlike previous histories it is not just a chronological survey of critical writing but a multidisciplinary investigation of how the understanding of literature and its various genres was transformed at the start of the modern era by developments in philosophy psychology the natural sciences linguistics and other disciplines as well as in society at large In the process modern literary theory at first often implicit in literary texts themselves emancipated itself from classical poetics and rhetoric and literary criticism emerged as a full time professional activity catering for an expanding literate public The volume is international both in coverage and in authorship Extensive bibliographies provide guidance for further specialised study *Beyond Autonomy in Eighteenth-Century British and German Aesthetics* Karl Axelsson, Camilla Flodin, Mattias Pirholt, 2020-10-25 This volume re-examines traditional interpretations of the rise of modern aesthetics in eighteenth century Britain and Germany It provides a new account that connects aesthetic experience with morality science and political society In doing so it challenges long standing teleological narratives that emphasize disinterestedness and the separation of aesthetics from moral cognitive and political interests The chapters are divided into three thematic parts The chapters in Part I demonstrate the heteronomy of eighteenth century British aesthetics They chart the evolution of aesthetic concepts and discuss the ethical and political significance of the aesthetic theories of several key figures namely the third Earl of Shaftesbury David Hume and Adam Smith Part II explores the ways in which eighteenth century German and German oriented thinkers examine aesthetic experience and moral concerns and relate to the work of their British counterparts The chapters here cover the work of Kant Moses Mendelssohn Alexander Gottlieb Baumgarten and Madame de Staël Finally Part III explores the interrelation of science aesthetics and a new model of society in the work of Goethe Johann Wilhelm Ritter Friedrich Schlegel and William Hazlitt among others This volume develops unique discussions of the rise of aesthetic

autonomy in the eighteenth century In bringing together well known scholars working on British and German eighteenth century aesthetics philosophy and literature it will appeal to scholars and advanced students in a range of disciplines who are interested in this topic The Introduction and Chapters 2 10 and 12 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Alison Milbank, 2018-11-10 God and the Gothic Romance and Reality in the English Literary Tradition provides a complete reimagining of the Gothic literary canon to examine its engagement with theological ideas tracing its origins to the apocalyptic critique of the Reformation female martyrs and to the Dissolution of the monasteries now seen as usurping authorities A double gesture of repudiation and regret is evident in the consequent search for political aesthetic and religious mediation which characterizes the aftermath of the Glorious Revolution and Whig Providential discourse Part one interprets eighteenth century Gothic novels in terms of this Whig debate about the true heir culminating in Ann Radcliffe's melancholic theology which uses distance and loss to enable a new mediation Part two traces the origins of the doppelgänger in Calvinist anthropology and establishes that its employment by a range of Scottish writers offers a productive mode of subjectivity necessary in a culture equally concerned with historical continuity In part three Irish Gothic is shown to be seeking ways to mediate between Catholic and Protestant identities through models of sacrifice and ecumenism while in part four nineteenth century Gothic is read as increasingly theological responding to materialism by a project of re-enchantment Ghost story writers assert the metaphysical priority of the supernatural to establish the material world Arthur Machen and other Order of the Golden Dawn members explore the double and other Gothic tropes as modes of mystical ascent while raising the physical to the spiritual through magical control and the M R James circle restore the sacramental and psychical efficacy of objects
