Subliminal Seduction Wilson Bryan Key, 1974 Explains the ways in which the media uses sex and violence to manipulate human behavior citing specific examples from Playboy Vogue and Cosmopolitan magazines Adman's Dilemma Paul Rutherford, 2018-01-01 The Adman's Dilemma is a cultural biography that explores the rise and fall of the advertising man as a figure who became effectively a licensed deceiver in the process of governing the lives of American consumers Apparently this personage was caught up in a contradiction both compelled to deceive yet supposed to tell the truth It was this moral condition and its consequences that made the adman so interesting to critics novelists and eventually filmmakers The biography tracks his saga from its origins in the exaggerated doings of P T Barnum the emergence of a new profession in the 1920s the heyday of the adman's influence during the post WW2 era the later rebranding of the adman as artist until the apparent demise of the figure symbolized by the triumph of that consummate huckster Donald Trump In The Adman's Dilemma author Paul Rutherford explores how people inside and outside the advertising industry have understood the conflict between artifice and authenticity The book employs a range of fictional and nonfictional sources including memoirs novels movies TV shows websites and museum exhibits to suggest how the adman embodied some of the strange realities of modernity World Made Sexy Paul Rutherford, 2007-08-11 The cult of eroticism is a pervasive force in modern society affecting almost every aspect of our daily lives In this book Paul Rutherford argues that this phenomenon is a product of one of the major commercial and political enterprises of the twentieth and twenty first centuries the creation of desire for sex for wealth and for entertainment A World Made Sexy examines museum exhibitions art books magazines films and television to explore the popular rise of eroticism in America and across the developed world Starting with a brief foray into the history of pornography Rutherford goes on to explore a sexual liberation movement shaped by the ideas of Marx and Freud the erotic styles of Salvador Dali and pop art the pioneering use of publicity as erotica by Playboy and other media and the growing concerns of cultural critics over the emergence of a regime of stimulation In one case study Rutherford pairs James Bond and Madonna in order to examine the link between sex and aggression He details how television advertising after 1980 constructed a theatre of the libido to entice the buying public and concludes by situating the cultivation of eroticism in the wider context of Michel Foucault's views on social power and governmentality and specifically how they relate to sexuality during the modern era A World Made Sexy is about power and pleasure emancipation and domination and the relationship between the personal passions and social controls that have crafted desire *Serialization in Popular Culture* Rob Allen, Thijs van den Berg, 2014-05-23 From prime time television shows and graphic novels to the development of computer game expansion packs the recent explosion of popular serials has provoked renewed interest in the history and economics of serialization as well as the impact of this cultural form on readers viewers and gamers In this volume contributors literary scholars media theorists and specialists in comics graphic novels and digital culture examine the

Communication David K. Perry,2001-11-01 This updated edition presents a civic journalism treatment of the field of mass communication research The sine qua non of the civic journalism movement seems to center around an implicit assumption that the human mind is an evolved part in the natural world not a detached spectator as much traditional philosophy assumes Thus it has attempted to encourage journalists and members of their audiences to participate actively in civic life Applying the same idea to mass communication academics this book focuses on the empirical consequences of their work especially its possible impact on human life It argues that researchers need to connect with the broader communities in which they live and considers the impact of media research on society Features of the second edition include detailed update of research evidence concerning the media violence issue additional material concerning media ownership structures and their possible relationship to media content and effects new material focusing on the impact of tobacco and alcohol advertising updated and expanded section concerning the history of media studies and an expanded discussion of philosophical issues pertaining to theory construction This book is intended for graduate and advanced undergraduate students studying mass communication theory and related subjects such as communication theory media effects media literacy and media and society

Globalization, Sport and Corporate Nationalism

Jay Scherer,Steve Jackson,2010 Although New Zealand exists as a small pop 4 3 million peripheral nation in the global economy it offers a unique site through which to examine the complex but uneven interplay between global forces and long standing national traditions and cultural identities This book examines the profound impact of globalization on the national sport of rugby and New Zealand s iconic team the All Blacks

Since 1995 the national sport of rugby has undergone significant change most notably due to the New Zealand Rugby Union's lucrative and ongoing corporate partnerships with Rupert Murdoch's News Corporation and global sportswear giant Adidas. The authors explore these significant developments and pressures alongside the resulting tensions and contradictions that have emerged as the All Blacks and other aspects of national heritage and indigenous identity have been steadily incorporated into a global promotional culture. Following recent research in cultural studies they highlight the intensive but contested commodification of the All Blacks to illuminate the ongoing transformation of rugby in New Zealand by corporate imperatives and the imaginations of marketers most notably through the production of a complex discourse of corporate nationalism within Adidas's evolving local and global advertising campaigns.

The Ashgate Research Companion to Minimalist and Postminimalist Music Keith Potter, Kyle Gann, 2016-03-23

In recent years the music of minimalist composers such as La Monte Young, Terry Riley, Steve Reich and Philip Glass has increasingly become the subject of important musicological reflection, research and debate. Scholars have also been turning their attention to the work of lesser known contemporaries such as Phill Niblock and Eliane Radigue or to second and third generation minimalists such as John Adams, Louis Andriessen, Michael Nyman and William Duckworth whose range of styles may undermine any sense of shared aesthetic approach but whose output is still to a large extent informed by the innovative work of their minimalist predecessors. Attempts have also been made by a number of academics to contextualise the work of composers who have moved in parallel with these developments while remaining resolutely outside its immediate environment including such diverse figures as Karel Goeyvaerts, Robert Ashley, Arvo Pärt and Brian Eno. Theory has reflected practice in many respects with the multimedia works of Reich and Glass encouraging interdisciplinary approaches, associations and interconnections. Minimalism's role in culture and society has also become the subject of recent interest and debate complementing existing scholarship which addressed the subject from the perspective of historiography, analysis, aesthetics and philosophy. *The Ashgate Research Companion to Minimalist and Postminimalist Music* provides an authoritative overview of established research in this area while also offering new and innovative approaches to the subject.
