Tow, 2023 Tow assesses the extent to which five subregional security organizations the Association of Southeast Asian Nations ASEAN the Gulf Cooperation Council GCC the Organization of East Caribbean States OECS the Southern African Development Coordination Conference SADCC and the South Pacific Forum SPF have succeeded in meeting commonly defined security threats in overcoming their members political and economic vulnerabilities and in compelling the major powers to accept the legitimacy of their regional security agendas

Regional Approaches to Security in the Third World Amitav Acharya, 1992 *The Transformation of Security in the Asia/Pacific Region* Desmond Ball, 2013-10-14 The security architecture of the Asia Pacific region is in a profound transformation Such changes are not without problems which are discussed here *The United Nations & Regional Security* Michael Charles Pugh, Waheguru Pal Singh Sidhu, 2003 Events in Europe over the past decade or so have created a dynamic requiring conceptual and practical adjustments on the part of the UN and a range of regional actors This volume explores the resulting collaborative relationships in the context of peace operations in the Balkans

South Africa and the Logic of Regional Cooperation James J. Hentz, 2005-07-19 In *South Africa and the Logic of Regional Cooperation* James J Hentz addresses changes in South Africa s strategies for regional cooperation and economic development since its transition from apartheid to democracy Hentz focuses on why the new South African government continues to make regional cooperation a priority and what methods this dominant state uses to pursue its neighborly goals While providing a synthetic overview of the history of regional cooperation in southern Africa Hentz considers the logic of cooperation more generally An extensive discussion of South African politics provides the context for Hentz s exploration of the more widely felt effects of domestic change Readers interested in the international organization of the politics and economy of southern Africa will find thought provoking material in this important book

The Quest for Security in the Caribbean Ivelaw L. Griffith, 2015-06-11 This comprehensive work on security in the English speaking Caribbean offers a wealth of information about the history politics economics and geography of the entire region The author examines security problems in the region as a geopolitical unit not on a selective case study basis as is usually done He assesses Caribbean security within a theoretical framework where four factors are critical perceptions of the political elites capabilities of the states the geopolitics of the area and the ideological orientations of the parties in power Political and economic issues are judged to be as relevant to security as military factors

The author identifies safeguards which countries in the region may take in the coming decade *The Dynamics of Black Sea Subregionalism* Panagiota Manoli, 2016-03-23 Conflict and cooperation are two dynamics that have shaped the political economy and international relations around the Black Sea since the early nineties Despite the negative structural environment and the persistence of a high security dilemma cooperative efforts among Black Sea actors primarily state elites but increasingly non state actors have been advancing even though slowly Representing a new development in the study of contemporary regionalism Panagiota Manoli examines the process of institutionalized subregional cooperation and casts new light on the factors influencing the reconfiguration of subregional structures in the region Focusing on the primary initiative in the region Black Sea Economic Cooperation BSEC Manoli traces how subregionalism has evolved since the early nineties and what has been driving and conditioning this process Questioning whether there is a definitive nature to subregionalism Manoli then discusses Black Sea subregionalism within the European integration process examining the impact of the European Union Contributing to the conceptualization of the subregional phenomenon this book should be read by scholars and policy makers alike unclear on how local elements interface with extra regional forces in the shaping of a subregion
