Substitute Victim:

Victim Assistance in the Juvenile Justice System National Organization for Victim Assistance (U.S.),1996 *The Urgings of Conscience* Jacob Adler,2010-06-30 While most philosophers who write about punishment ask Why may we punish the guilty Jacob Adler asks To what extent does a guilty person have a duty to submit to punishment He maintains that if we are to justify any system of punishment by the state we must explain why persons guilty of an offense are morally bound to submit to punitive treatment or to undertake it on their own Using Rawls s theory of social contract as a framework the author presents what he calls the rectification theory of punishment After examining punishment from two points of view that of the punisher and that of the offender who is to be punished Adler proposes the Paradigm of the Conscientious Punishee a repentant wrongdoer who views punishment as not necessarily unpleasant but as something it is morally incumbent upon one to undertake The author argues that this paradigm must play a central role in the theory of punishment Citing community service projects and penances for sin as required by some religions Adler argues that punishment need not involve pain or any other disvalue Instead he defines it in terms of its justificatory connection with wrongdoing punishment is that which is justified by the prior commission of an offense and generally not justified without the prior commission of an offense The rectification theory applies particularly to offenses involving basic liberties It is based on the assumption that each person is guaranteed the right to an inviolable sphere of liberty Someone who commits an offense has expanded his or her sphere by arrogating excess liberties In order to maintain the equality on which this theory rests an equivalent body of liberties must be given up In discussing applications of the theory Adler demonstrates that active service as punishment is more effective in safeguarding important rights and interests and maintaining the social contract than is afflictive punishment Applied Cryptography and Network Security Workshops Martin Andreoni,2024-06-28 This two volume set LNCS 14586 14587 constitutes the proceedings of eight Satellite Workshops held in parallel with the 22nd International Conference on Applied Cryptography and Network Security ACNS 2024 held in Abhu Dabhi United Arab Emirates during March 5 8 2024 The 33 full papers and 11 poster papers presented in this volume were carefully reviewed and selected from 62 submissions They stem from the following workshops 6th ACNS Workshop on Application Intelligence and Blockchain Security AIBlock 2024 5th ACNS Workshop on Artificial Intelligence in Hardware Security AIHWS 2024 6th ACNS Workshop on Artificial Intelligence and Industrial IoT Security AIoTS 2024 5th ACNS Workshop on Secure Cryptographic Implementation SCI 2024 1st Workshop on Advances in Asymmetric Cryptanalysis AAC 2024 6th ACNS Workshop on Security in Machine Learning and its Applications SiMLA 2024 1st Workshop on Low Latency Encryption LLE 2024 4th ACNS Workshop on Critical Infrastructure and Manufacturing System Security CIMSS 2024 **Alternatives to Prison** Anthony Bottoms,Sue Rex,Gwen Robinson,2013-01-11 As the UK and many other western societies face up to the consequences of a rapidly increasing prison population so the search for alternative approaches to punishment and dealing with offenders has become an increasingly

urgent priority for government policy and society as a whole This book reports the results of the research programme commissioned by the Coulsfield Inquiry into Alternatives to Prison which was funded by the Esm e Fairbairn Rethinking Crime and Punishment initiative It is written by leading authorities in the field and provides a comprehensive authoritative and wide ranging review of the range of issues associated with the use of noncustodial sanctions examining experiences in Scotland and Northern Ireland as well as England and Wales

Redemption Nicholas Roumas,2025-08-05 A bold trailblazing investigation into soteriology approached by way of Girardian mimetic theory and Eastern Orthodox theological reflection Redemption A Mimetic Soteriology brings French literary critic Ren Girard s mimetic theory of human behavior together with a breadth of Christian approaches to redemption through the Cross Girard s mimetic understanding of sacrifice is drawn upon to illuminate biblical narratives about redemption as well as the theologies of Anselm of Canterbury Peter Abelard and Gregory of Nyssa Nicholas Roumas shows by these readings that redemption can be understood as a reconfiguration of symbolic values with profound consequences for human relations and social organization Redemption thus serves theologians as a basis for a new practical dogmatics This exploration is a breath of fresh air in Orthodox theology utilizing patristic and scriptural sources outside the framework of the predominant neo Patristic synthesis and introducing an entirely new modern paradigm onto the Orthodox scene For theologians of other traditions Redemption contributes to the library of Girardian theologies its first Eastern Orthodox installment For Girardians it provides critique and refinement of many of Girard s most nuanced views and gives due attention to overlooked and controversial aspects of his thought For the lay reader the book provides an accessible entry into the spirituality of the Cross through a lens that is both modern and traditional Redemption provides a revitalizing infusion into contemporary Orthodox

theological discourse Its ideas will impact theology in the Orthodox Church and beyond for decades to come and are the basis for a paradigm shift in our understanding of redemption and its practical consequences The lay reader and professional theologian alike will find novelty and utility in its ideas The Psychology of Serial Killer Investigations Robert D.

Kimberley C. Patton, 2022-10-06 Why do twins remain uncanny to those born alone in other words most of us Even with the rise of IVF and an increase in multiple births why do we still do a double take when we encounter twins Why has this been a near universal response throughout human history and how has it played out in religion and myth Through the work of leading scholars in religion folklore and mythology history anthropology and archaeology Gemini and the Sacred explores how twinship has long been imagined especially in the complex relationship of sacred twin traditions to twins on the ground in biology and lived experience The book considers the multiple ways in which the doubling of a human being may be interpreted as auspicious and powerful or suppressed as unstable and dangerous Why has this been so and how does it affect living twins today Treating both famous and lesser known twins including supernatural animal twins in the ancient Near Eastern and classical Mediterranean worlds early Christianity and Gnosticism Vedic Hindu West African Black Atlantic and native American traditions ancient Mesoamerica Celtic Roman Britain and Scandinavia and in the special fraught bond shared by all twins the book offers a variety of perspectives on this topic of great cultural significance *Freud as*

Philosopher Richard Boothby, 2015-10-15 Using Jacques Lacan's work as a key Boothby reassesses Freud's most ambitious and misunderstood attempt at a general theory of mental functioning metapsychology

Cold Cases James M. Adcock, Sarah L. Stein, 2017-05-22 Nearly 185 000 homicides since 1980 remain unsolved yet with limited staff and resources it is no surprise that law enforcement units place the bulk of their efforts on current cases where victims family members and the media demand answers Cold Cases An Evaluation Model with Follow up Strategies for Investigators provides a comprehensive roadmap for digging those cold cases out of the file room and getting them resolved Practical and concise the book is an invaluable tool for police officers and detectives attempting to solve crimes that would otherwise be forgotten

Evaluating the Case Divided into three sections the book begins with a historical perspective on how cases get to the point where it appears all investigative leads have been exhausted It includes a chapter on understanding the process of homicide and those who kill critical information for the homicide investigator Next the authors explain the evaluation model They demonstrate the key elements of organization thoroughness and the value of the scientific method This section validates theories of the crime raises evidentiary issues and concerns addresses the informational and behavioral aspects relative to the crime and the participants in the crime and documents investigative strategies for future efforts on the case Investigating and Solving the Crime The third section discusses the investigation that follows the evaluation The book considers questions investigators must ask including what should be looked at beyond the case file itself and how the growth in technology since the date of the incident might provide new opportunities to uncover clues This section also explores the choice of interview interrogation techniques based on the behavioral aspects involved Finally the authors suggest how investigators can maximize their efforts and obtain not just an arrest but a conviction Useful appendices include sample standard operating procedures from three different agencies to use as a guide for setting up a cold case unit and a list of additional resources a department may look to for assistance By following the cold cases evaluation model in this volume those charged with resolving long forgotten crimes can increase their chance of an accurate resolution or at least be able to say that everything that can be done has been done
