Judd,1988 *Reckoning Day* Jacqueline Foertsch,2013-08-30 Too often lost in our understanding of the American Cold War crisis with its nuclear brinkmanship and global political chess game is the simultaneous crisis on the nation s racial front Reckoning Day is the first book to examine the relationship of African Americans to the atom bomb in postwar America It tells the wide ranging story of African Americans response to the atomic threat in the postwar period It examines the anti nuclear writing and activism of major figures such as W E B Du Bois Rev Dr Martin Luther King Jr and Lorraine Hansberry as well as the placement or absence of black characters in white authored doomsday fiction and nonfiction Author Jacqueline Foertsch analyzes the work of African American thinkers activists writers journalists filmmakers and musical performers in the atomic decades of 1945 to 1965 and beyond Her book tells the dynamic story of commitment and interdependence as these major figures spoke with force and eloquence for nuclear disarmament just as they argued unassailably for racial equality on numerous other occasions Foertsch also examines the placement of African American characters in white authored doomsday novels science fiction and survivalist nonfiction such as government sponsored forecasts regarding post nuclear survival In these black characters are often displaced or absented entirely in doomsday narratives they are excluded from executive decision making and the stories often triumphant conclusions in the nonfiction they are rarely envisioned amongst the typical American survivors charged with rebuilding US society Throughout Reckoning Day issues of placement and positioning provide the conceptual framework abandoned at ground zero America s inner cities during the height of the atomic threat African Americans were figured in white authored survival fiction as compliant servants aiding white victory over atomic adversity while as historical figures they were often perceived as elsewhere indifferent to the atomic threat In fact African Americans position on the bomb was rarely one of silence or indifference Ranging from appreciation to disdain to vigorous opposition atomic era African Americans developed diverse and meaningful positions on the bomb and made

essential contributions to a remarkably American dialogue *The Great Good Place* Ray Oldenburg, 1999-08-18 The landmark survey that celebrates all the places where people hang out and is helping to spawn their revival A New York Times Book Review Editor's Choice Third places or great good places are the many public places where people can gather put aside the concerns of home and work their first and second places and hang out simply for the pleasures of good company and lively conversation They are the heart of a community's social vitality and the grassroots of a democracy Author Ray Oldenburg portrays probes and promotes these great good places coffee houses cafes bookstores hair salons bars bistros and many others both past and present and offers a vision for their revitalization Eloquent and visionary this is a compelling argument for these settings of informal public life as essential for the health both of our communities and ourselves And its message is being heard Today entrepreneurs from Seattle to Florida are heeding the call of *The Great Good Place* opening coffee houses bookstores community centers bars and other establishments and proudly acknowledging their indebtedness to this book *Fields of Sun and Grass* John R. Quinn, 1997 John Quinn's recollections and dramatic drawings create a portrait in text and line of a surprising urban wetlands A valuable edition to volumes on New Jersey Anne Galli Director of Environmental Education Hackensack Meadowlands Development Commission **The Public Realm** Lyn H. Lofland, 2017-07-12 This book is about the public realm defined as a particular kind of social territory that is found almost exclusively in large settlements This particular form of social psychological space comes into being whenever a piece of actual physical space is dominated by relationships between and among persons who are strangers to one another as often occurs in urban bars buses plazas parks coffee houses streets and so forth More specifically the book is about the social life that occurs in such social psychological spaces the normative patterns and principles that shape it the relationships that characterize it the aesthetic and interactional pleasures that enliven it and the forces anti urbanism privatism post war planning and architecture that threaten it The data upon which the book's analysis is based are diverse direct observation interviews contemporary photographs historic etchings prints and photographs and historical maps histories of specific urban public spaces or spatial types and the relevant scholarly literature from sociology environmental psychology geography history anthropology and architecture and urban planning and design Its central argument is that while the existing body of accomplished work in the social sciences can be reinterpreted to make it relevant to an understanding of the public realm this quintessential feature of city life deserves much more than it deserves to be the object of direct scholarly interest in its own right Choice noted that The author's writing style is unusually accessible and the often fascinating narrative is generously supported by well chosen photos **Remaking American Communities** David C. Soule, 2007-11-01 Urban sprawl has gained much national attention in recent years Sprawl involves not only land use issues but also legal political and social concerns It affects our schools the environment and race relations Comprehensive enough for high school students and also appropriate for college undergraduates *Remaking American Communities* delves into the challenges of urban sprawl by

turning to some of America's top thinkers on the problem including Robert Yaro president of the Regional Plan Association. Other cutting edge essays include a foreword about the emergence of sprawl by nationally syndicated columnist Neal Peirce, views about race and class by former mayor of Albuquerque David Rusk and a discussion of transportation dynamics by Curtis Johnson president of the CitiStates Group. The essays in this collection explore the core issues of sprawl and the agenda for dealing with it. Complete with a glossary, resources and contact information for smart growth alliances, this book is extremely user friendly. David C. Soule offers an unbiased viewpoint of this national phenomenon in a way that will be accessible to students and those with little background in the issue.
