Suburbia An International Assessment:

Suburbia Donald N. Rothblatt, Daniel J. Garr, 2021-06-29 Originally published in 1986 and drawing on material from the USA The Netherlands and Israel this book addresses the question of whether suburban environments enhance the quality of life and which factors influence this quality It examines whether suburbs really provide improved housing and community services compared to the central city and whether they foster rewarding social patterns and psychological well being It also analyses precisely what characteristics suburban areas offer and how congruent these characteristics are with the preferences of suburban residents

British Spy Fiction and the End of Empire Sam Goodman, 2015-06-05 The position of spy fiction is largely synonymous in popular culture with ideas of patriotism and national security with the spy himself indicative of the defence of British interests and the preservation of British power around the globe This book reveals a more complicated side to these assumptions than typically perceived arguing that the representation of space and power within spy fiction is more complex than commonly assumed Instead of the British spy tirelessly maintaining the integrity of Empire this volume illustrates how spy fiction contains disunities and disjunctions in its representation of space and the relationship between the individual and the state in an era of declining British power Focusing primarily on the work of Graham Greene Ian Fleming Len Deighton and John le Carre the volume brings a fresh methodological approach to the study of spy fiction and Cold War culture It presents close textual analysis within a framework of spatial and sovereign theory as a means of examining the cultural impact of decolonization and the shifting geopolitics of the Cold War Adopting a thematic approach to the analysis of space in spy fiction the text explores the reciprocal process by which contextual history intersects with literature throughout the period in question arguing that spy fiction is responsible for reflecting strengthening and in some cases precipitating cultural anxieties over decolonization and the end of Empire This study promises to be a welcome addition to the developing field of spy fiction criticism and popular culture studies Both engaging and original in its approach it will be important reading for students and academics engaged in the study of Cold War culture popular literature and the changing state of British identity over the course of the latter twentieth century

The Environmental Imagination Lawrence Buell, 1996-09-01 With Thoreau's Walden as a touchstone Buell offers an account of environmental perception the place of nature in the history of Western thought and the consequences for literary scholarship of attempting to imagine a more ecocentric way of being In doing so he provides a profound rethinking of our literary and cultural reflections on nature

The Behavioural Environment F.W. Boal, D.N. Livingstone, 2003-09-02 Placing human action and perception at the centre of the subject this book considers the effects of

mankind on the environment drawing particularly from William Kirk's work on the behavioural environment model. Reviewing Kirk's original model in light of recent ideological debate and extensive new evidence, this collection of essays from leading names in the field shows that a behavioural approach is essential in understanding human geography and man's relationship with the ecological environment.

After Suburbia Roger Keil, Fulong Wu, 2022-08-31 After Suburbia presents a cross-section of state-of-the-art scholarship in critical global suburban research and provides an in-depth study of the planet's urban peripheries to grasp the forms of urbanization in the twenty-first century. Based on cutting-edge conceptual thought and steeped in richly detailed empirical work conducted over the past decade, After Suburbia draws on research from Asia, Africa, Australia, Europe, and the Americas to showcase comprehensive global scholarship on the urban periphery. Contributors explicitly reject the traditional centre-periphery dichotomy and the prioritization of epistemologies that favour the Global North, especially North American cases, over other experiences. In doing so, the book strongly advances the notion of a post-suburban reality in which traditional dynamics of urban extension outward from the centre are replaced by a set of complex, contradictory developments. After Suburbia examines multiple centralities and diverse peripheries which mesh to produce a surprisingly contradictory and diverse metropolitan landscape.

Understanding Processes of Ethnic Concentration and Dispersal Jennifer McGarrigle, 2025-10-01 Questions surrounding race as a spatial divider have come to the forefront of the political agenda, compelling us to revisit the debate on residential segregation. Drawing on the spatial analysis of changing dynamics in the ethnic geography of Greater Glasgow and qualitative research on the residential preferences of 40 South Asian households, this book enhances our understanding of settlement in the city. Understanding Processes of Ethnic Concentration and Dispersal documents new residential patterns, including South Asian suburbanisation in traditionally white areas. Processes underlying both the changes and signs of sustained ethnic concentration are shown to be dynamic and complex. They encompass elements of choice, constraint, and negotiations between the two, while also revealing a remarkable array of differentials such as class, status, education, age, and culture.
