Robbin S. Ogle, Susan Jacobs

Such Women Are Deadly:

Fatal Women of Romanticism Adriana Craciun, 2002-12-12 Incarnations of fatal women or femmes fatales recur throughout the works of women writers in the Romantic period Adriana Craciun demonstrates how portrayals of femmes fatales or fatal women played an important role in the development of Romantic women's poetic identities and informed their exploration of issues surrounding the body sexuality and politics Craciun covers a wide range of writers and genres from the 1790s through the 1830s She discusses the work of well known figures including Mary Wollstonecraft as well as lesser known writers like Anne Bannerman By examining women writers fatal women in historical political and medical contexts Craciun uncovers a far ranging debate on sexual difference She also engages with current research on the history of the body and sexuality providing an important historical precedent for modern feminist theory's ongoing dilemma regarding the status of woman as a sex

Dangerous Women, Deadly Words Nina Cornyetz, 1999 This is a materialist feminist psychoanalytic analysis of a modern Japanese literary trope the dangerous woman linked to archaisms and magical realms and found throughout the Japanese canon in the works of three 20th century writers Izumi Kyoka 1873-1939 Enchi Fumiko 1905-86 and Nakagami Kenji 1946-92

When Women Kill Belinda Morrissey, 2003-12-08 Why are we so reluctant to believe that women can mean to kill Based on case studies from the US UK and Australia this book looks at the ways in which female killers are constructed in the media in law and in feminist discourse almost invariably as victims rather than actors in the crimes they commit Morrissey argues that by denying the possibility of female agency in crimes of torture rape and murder feminist theorists are with the best of intentions actually denying women the full freedom to be human Case studies cover among others the battered wife Pamela Sainsbury who garrotted her husband as he slept the serial killer Aileen Wournos who killed seven middle aged men in Florida between 1989 and 1990 Tracey Wiggington the so called lesbian vampire killer and Karla Homolka who helped her husband kill two teenage girls in St Catherines Ontario in 1993

Self-Defense and Battered Women Who Kill Robbin S. Ogle, Susan Jacobs, 2002-08-30 Battering relationships often escalate to a point where the battered woman commits homicide When such homicides occur attention is usually focused on the final violent encounter however Ogle and Jacobs argue while that act is the last homicidal encounter it is not the only one This important study argues that the battering relationship is properly understood as a long term homicidal process that if played out to the point that contrition dissipates is very likely to result in the death of one of the parties In that context Ogle and Jacobs posit a social interaction perspective for understanding the situational cultural social and structural forces that work toward maintaining the battering relationship and escalating it to a homicidal end This book details this theory and explains how to apply it in a trial setting Elements of self defense law are problematic for battered women who kill their abusers These include imminence reasonableness of the victim's perception of danger and reasonableness of the victim's choice of lethal violence and their proportionality Social interaction theory argues that once contrition dissipates imminence

is constant The victim functions in an unending state of extreme tension and fear This allows us to understand the victim's view of the violence as escalating beyond control thereby increasing her reasonable perception of danger and lethality After social resources for whatever reason fail to end the violence it is then reasonable for the victim to conclude that she will have to act in her own defense in order to survive

Women Who Kill Lenore Walker, David Shapiro, Amanda Tames, Brandi Diaz, 2024-10-11 Women rarely kill How and why a woman can be driven to lethal action is often highly complex and misunderstood Many of these women who act lethally are driven to such a point as a last resort following prolonged experiences of child abuse and or domestic violence This book offers insights into these women detailing their motivations their patterns of violence and how they can be aided through psychological evaluation and proper expert testimony The chapters in this volume also include discussions of women who did not kill but were punished as if they had This collection of writings seeks to fill the gaps in research on women who kill This book is beneficial to students and researchers of Psychology including Forensic Psychology It will further aid the field of criminal justice as well as policymakers such that clinicians can provide an enhanced understanding on various psychological and demographic factors which contribute to situations where battered women reach a point where the only option to ensure survival is lethal self defense Finally this book offers clarity as it points out the areas in which the legal system has failed these women The chapters in this book were originally published as a special issue of Journal of Aggression Maltreatment Trauma

When Women Kill Coramae Richey Mann, 1996-02-01 The volume explores every aspect of females who murdered from arrest through sentencing and provides descriptions of ecological and other circumstances of the murders the victims the motives of the perpetrators and their fates in court The generous utilization of case examples dramatically reveals the homicide scenarios This exploratory descriptive study compares 296 females arrested for homicide in six urban areas Atlanta Baltimore Chicago Houston Los Angeles and New York City in 1979 and 1983 During field trips to these cities which have the highest murder rates in the country both qualitative and quantitative data were collected from police files homicide records F B I reports and criminal court information Research analyses reveals a fascinating profile of today's female murderer When Women Kill presents a comprehensive yet highly readable overview of this previously neglected subgroup of homicide offenders
