Fiddes, 2021-09-23 This book explores the way in which the study and practice of love creates a common ground for different faiths and different traditions within the same faith For the contributors common ground in this context is not a minimal core of belief or a lowest common denominator of faith but a space or area in which to live together consider together the meaning of the love to which various faiths witness and work

together to enable human flourishing Such a space the contributors believe is possible because it is the place of encounter with the divine This book is the fruit of a Project for the Study of Love in Religion which aims to create this space in which different traditions of love converge from Islam Judaism and the Christianity of both East and West Tools employed by the contributors in exploring this space of love include exegesis of ancient texts theology accounts of mystical experience philosophy and evolutionary science of the human Insights about human and divine love that emerge include its nature as a form of knowing its sacrificial and erotic dimensions its inclination towards beauty its making of community and its importance for a just political and economic life Mysticism and Meaning: Multidisciplinary Perspectives Alex S.

Kohav,2019 The volume investigates the question of meaning of mystical phenomena and conversely queries the concept of meaning itself via insights afforded by mystical experiences The collection brings together researchers from such disparate fields as philosophy psychology history of religion cognitive poetics and semiotics in an effort to ascertain the question of mysticism s meaning through pertinent up to date multidisciplinary The discussion commences with Editor s Introduction that probes persistent questions of complexity as well as perplexity of mysticism and the reasons why problematizing mysticism leads to even greater enigmas One thread within the volume provides the contextual framework for continuing fascination of mysticism that includes a consideration of several historical traditions as well as personal accounts of mystical experiences Two contributions showcase ancient Egyptian and ancient Israelite involvements with mystical alterations of consciousness and Christianity s origins being steeped in mystical praxis and four essays highlight mysticism s formative presence in Chinese traditions and Tibetan Buddhism as well as medieval Judaism and Kabbalah mysticism A second more overarching strand within the volume is concerned with multidisciplinary investigations of the phenomenon of mysticism including philosophical psychological cognitive and semiotic analyses To this effect the volume explores the question of philosophy s relation to mysticism and vice versa together with a Wittgensteinian nexus between mysticism facticity and truth language mysticism and supernormal meaning engendered by certain mystical states cognitive poetic analysis of mystical poetry and a semiotic scrutiny of some mystical experiences and their ineffability Finally the volume includes an assessment of the so called New Age authors contention of the convergence of scientific and mystical claims about reality The above two tracks are appended with personal contemporary accounts of mystical experiences in the Prologue and a futuristic envisioning as a fictitious chronicle from the time to come of life without things mystical in the Postscript The volume contains fourteen chapters its international contributors are based in Canada Israel United Kingdom and the United States Routledge Handbook on Sufism Lloyd Ridgeon,2020-08-09 This is a chronological history of the Sufi tradition divided in to three sections early middle and modern periods The book comprises 35 independent chapters with easily identifiable themes and or geographical threads all written by recognised experts in the field The volume outlines the origins and early developments of Sufism by assessing the formative thinkers and practitioners and investigating specific pietistic

themes The middle period contains an examination of the emergence of the Sufi Orders and illustrates the diversity of the tradition This middle period also analyses the fate of Sufism during the time of the Gunpowder Empires Finally the end period includes representative surveys of Sufism in several countries both in the West and in traditional Islamic regions This comprehensive and up to date collection of studies provides a guide to the Sufi tradition The Handbook is a valuable resource for students and researchers with an interest in religion Islamic Studies and Middle Eastern Studies
