associated with the state and assesses their work with the aim of appreciating it and its place in today's culture. In Mississippi the importance of poetry can no longer be doubted. It partakes as Faulkner wrote of the broad aim of all literature to uplift man's heart. In *Mississippi Poets* author Catharine Savage Brosman introduces readers to the poets themselves stressing their versatility and diversity. She describes their subject matter and forms their books and particularly representative or striking poems. Of broad interest and easy to consult, this book is both a source of information and a showcase. It highlights the organic connection between poetry by Mississippians and the indigenous music genres of the region, blues and jazz. No other state has produced such abundant and impressive poetry connected to these essential American forms. Brosman profiles and assesses poets from the twentieth and twenty-first centuries. Grounds for selection include connections between the poets and the state, the excellence and abundance of their work, its critical reception, and both local and national standing. Natives of Mississippi and others who have resided here draw equal consideration. As C. Liegh McInnis observed, "You do not have to be born in Mississippi to be a Mississippi writer. If what happens in Mississippi has an immediate and definite effect on your work, you are a Mississippi writer."

Information on more than 17,500 living authors from English-speaking countries [The Made Thing](#) Leon Stokesbury, 1999-01-01. The second edition features twelve new poets as well as new work by Donald Justice, T. R. Hummer, Dave Smith, Pattiann Rogers, Andrew Hudgins, Henry Taylor, Gerald Barrax, Rodney Jones, and others. Among the new additions are Mark Jarman, Cathy Smith, Bowers, and Charlie Smith. Many teachers realize that the best way to get their students to relate to poetry is to show them poems that contain landscapes and subjects they understand and can identify with. Leon Stokesbury has put together a richly varied collection used in classrooms not only in the South but all over the country as a means of studying the important influence of southern poetry on American literature. With the publication of the second edition of *The Made Thing*, Stokesbury has marked the end of the twentieth century and the rise to prominence of southern writers. This collection serves as a substantial sampling of poets whose works span more than five decades and who explore the rich personal and cultural history that extends beyond the boundaries of the South.
