The Fur Seals Convention ... United States. Congress. House. Committee on Foreign Affairs, 1912 When Father Kills Mother Jean Harris-Hendriks, Dora Black, Tony Kaplan, 2002-01-04 Children bereaved by the death of one parent at the hands of the other almost always the father in effect lose both parents and are often forgotten in the midst of such dramatic situations Reflecting the increased interest in child protection and child law systems this second edition of *When Father Kills Mother* brings to public knowledge in amplified form information about the effects of psychological trauma and bereavement on children By combining knowledge about bereavement with that of post traumatic stress disorder the book remains informative and essential reading for all those involved in the field both professionally and personally *From Lynch Mobs to the Killing State* Charles J. Ogletree, Jr., Austin Sarat, 2006-05-01 Situates the linkage between race and the death penalty in the history of the U S Since 1976 over forty percent of prisoners executed in American jails have been African American or Hispanic This trend shows little evidence of diminishing and follows a larger pattern of the violent criminalization of African American populations that has marked the country's history of punishment In a bold attempt to tackle the looming question of how and why the connection between race and the death penalty has been so strong throughout American history Ogletree and Sarat headline an interdisciplinary cast of experts in reflecting on this disturbing issue Insightful original essays approach the topic from legal historical cultural and social science perspectives to show the ways that the death penalty is racialized the places in the death penalty process where race makes a difference and the ways that meanings of race in the United States are constructed in and through our practices of capital punishment *From Lynch Mobs to the Killing State* not only uncovers the ways that race influences capital punishment but also attempts to situate the linkage between race and the death penalty in the history of this country in particular the history of lynching In its probing examination of how and why the connection between race and the death penalty has been so strong throughout American history this book forces us to consider how the death penalty gives meaning to race as well as why the racialization of the death penalty is uniquely American **Functional Glycomics** Minoru Fukuda, 2006-12-08 In the past decade there has been an explosion of progress in understanding the roles of carbohydrates in biological systems This explosive progress was made with the efforts in determining the roles of carbohydrates in immunology neurobiology and many other disciplines examining each unique system and employing new technology This volume represents the second of three in the *Methods in Enzymology* series including *Glycobiology* vol 415 and *Glycomics* vol 416 dedicated to disseminating information on methods in determining the biological roles of carbohydrates These books are designed to provide an introduction of new methods to a large variety of readers who would like to participate in and contribute to the advancement of glycobiology The methods covered include structural analysis of carbohydrates biological and chemical synthesis of carbohydrates expression and determination of ligands for carbohydrate binding proteins gene expression profiling including micro array and generation of gene knockout

The National Provisioner, 1920 Targeted Killings, Law and Counter-Terrorism Effectiveness Ophir Falk, 2020-06-01 This book examines the permissibility and effectiveness of targeted killing in campaigns against terror Targeted killing has become a primary counterterrorism measure used by several countries in their confrontation with lethal threats The practice has been extensively used by the US in Afghanistan Iraq Pakistan Yemen and Somalia and by Israel in the West Bank and Gaza Several studies have already explored the difficult balance between achieving security while maintaining the liberties and rights of a country's civilians This book goes a step further by seeking to examine whether maintaining those liberties by complying with legal standards and minimizing unintended deaths can be more effective for national security Using targeted killing applied by Israel in particular as well as the United States during the first decade of the twenty first century as case studies this book explores that question and ultimately assesses whether compliance with legal standards can strengthen a state in its campaign against terrorism and thus provide stronger security The book focuses on civilian related criteria hypothesizing that minimizing civilian casualties will maximize effectiveness in an asymmetric war setting The conclusions are not limited to a specific tactic or theater and if adopted might have far reaching implications for how asymmetric warfare is strategized This book will be of much interest to students of counter terrorism law Middle Eastern studies and security studies
