*The Crusades, the Templars and Freemasonry* Rosaldo Bonnet,2023-04-07 Europe and Christianity were at serious risk from the advance of the Muslims The Catholic Church knew that for its strengthening in the old continent it also depended on preventing the progress of the Arabs in the region The Byzantine Empire on the other hand cornered by the Islamists saw its domains gradually shrink and if nothing was done it would be a question of time before they fell under Muslim domination And from this context a call for help a call for faith and an unprecedented mobilisation was the starting point for the Crusades However behind it all many secrets betrayals and hidden interests were disguised in the retaking of the Holy Land This was the backdrop of Europe and the Middle East in the early 11th century and after a vibrant speech Urban II in Clermont in France sets out on a journey to reconquer Jerusalem and its holy sites And in this scenario the story develops from the first Crusade evolving to the other crusades to the creation of the Order of the Temple and its collapse and finally to the building sites of the great cathedrals and operative freemasonry A historical saga of wars betrayals

**The Hidden Secret Power of Freemasonry** Robert Kallian, P.M., 2022-08-01 It is entertaining to be anti-Masonic and perpetuate conspiracy theories and stories based on satanic worship rather than join Freemasonry or any other private organization primarily structured with improving the individual in society The Masonic term making good men better is the desire of the craft concerning all people living in a multicultural society to better themselves This is masonry in a nutshell To achieve this betterment takes a great deal of work and self-inspection which the critics of the craft refuse to endure and fail to examine the important historical esoteric symbols associated with the craft This book is dedicated toward neutralizing such superficial negative ideology pursued by critics who have a personal interest in negating the significant works of the greatest fraternal organization in the world Contained herein are chapters on women in Freemasonry the Catholic Church and Freemasonry which contains an addendum relating to over one hundred cardinals and bishops who under pseudonyms were Freemasons a chapter on the 133rd Psalm providing a line-by-line interpretation of a work which provides the important ideological humanistic basis for both society and Freemasonry with an important chapter analyzing the final end-period of a man's life as it related to Ecclesiastes Chapter 12 Men join Freemasonry because in their hearts they seek to improve themselves In a reality any can start living as principled individuals exercising the same values without being a Freemason All that is required is desire and work effort with a foundation from the Holy Bible to betterment of himself However the Masonic Craft assists an individual in this journey by providing defined structure support and a roadmap that helps focus the advancement and as such increases the probability of a successful outcome Freemasonry centers on learning how to charge one's self with thought and physical conduct However in order to improve one must read study and understand the true nature of reality in life buttressed by the role of oneself and those with which one socializes This philosophy underlines why the most important virtues of Freemasonry are symbolic and teach us to be better humans Freemasonry gains its structure and foundation through an inherent love of an adherence to the Holy Bible and would not exist without that devotion The foundation of Masonry is predicated on the fact that the craft and the Bible are intricately interconnected just as other holy books around the world are central to their Freemason organizations Much of Masonry's symbolism is taken from biblical sources especially Genesis and the stories surrounding the building of King Solomon's temples Great emphasis is placed on the development of moral and ethical virtues and the building of character with truth being the guiding principle of our lives Thus brotherhood and charity are natural outcomes and further define one of Masonry's major tenets Masonry uses proven methods to enhance the lives and spirits of members in a tangible way In every Masonic lodge upon its altar there is a Holy Bible supporting the square and compasses This old familiar book so beloved by so many generations is our Volume of the Sacred Law and represents the Great Light in

Freemasonry The Bible is open when the lodge opens the Bible is closed when the lodge closes No lodge can transact its own business much less initiate candidates into the mysteries of the craft unless the Book of Holy Law lies open upon its altar It is the true responsibility of each individual Mason to seek out and understand the true nature of reality through the teachings of Freemasonry discovered in the symbols of the craft The individual must learn to recognize and interpret the footprints of the deity and the sublime methods that he uses to reveal his message So mote it be May the mystery begin **The Holy Grail Mystery Solved** Frank C. Tribbe,2003 What was the Holy Grail A cup A stone A platter According to the author this sacred relic was none of these things While setting forth the history of the Grail and its literature Frank Tribbe demonstrates conclusively that the Grail was none other than the Shroud of Turin protected in a rectangular box covered with a patterned cloth a greille *Holy Ghost* Alex LaFollette,2025-06-09 Leonardo da Vinci s final painting Saint John the Baptist has baffled art historians for centuries At first glance it is a devotional portrait of a beloved Catholic saint Yet its provocative depiction defies convention eluding all attempts at interpretation until now Through meticulous research spanning centuries a groundbreaking discovery unveils the painting s hidden meaning From the baptism of Christ and the suppressed Gnostic Gospels to its reverberations in modern times this enigmatic work redefines our understanding of art history and power *Holy Ghost* is the gripping true story behind da Vinci s most mysterious masterpiece The Templar Spirit Margaret Jonas,2011 What spiritual or esoteric practices took place within the mysterious often controversial activities of the Knights Templar Little is known about this aspect of the Order s history though speculation and wild rumors persist Having taken the three vows of poverty chastity and obedience members of the Templar Order were required to live the life of other monastic orders However their remarkable rise to a successful elite community followed by the insidious machinations and slander that led to their spectacular fall and destruction suggests that they were involved in something more significant than simple medieval religious practices There have been many theories about whether their secret involved material wealth and special treasure On the other hand could it have been connected to a science of initiation knowledge experience and understanding of spiritual dimensions that can enlighten students on an esoteric path In *The Templar Spirit* Margaret Jonas penetrates these questions examining various claims and revealing something of the esoteric practices and beliefs of the order including influences from other religious traditions She presents her research on the meaning of the mysterious head that the Templars were accused of worshipping and examines the historical figures that lent their wisdom and guidance to the founding of the order CULTS AND TERRORISM Frank MacHovec,2009-01-09 Describes the psychology of cults and terrorism with examples from ancient and modern history the psychological concepts involved how to detect and prevent them and treat its leaders and member victims
