Gunter, 2020-06-22 While dramatic changes taking place in the Middle East offer important opportunities to the Kurdish century long struggle for recognition serious obstacles seem to keep reemerging every time the Kurds anywhere make progress The large Kurdish geography extending from western Iran to near the eastern Mediterranean and a century of repression and denial have engendered various Kurdish groups with competing and at times conflicting views and goals The Kurds in the Middle East Enduring Problems and New Dynamics with an emphasis on continuity and change in the Kurdish Question brings together a group of well known scholars to shed light on this complex issue      **Kurdistan in Iraq** Aram Rafaat, 2018-05-11 The Kurdish Iraqi conflict lies in the fact that Kurdistan is a nation without a state and Iraq is a non nation state each possessing a nationhood project differing from and opposing the other Iraqi Kurdistan is an outward looking entity seeking external patronage Though external patronage has played a pivotal role in the evolution of the Kurdish quasi state a lack of positive patronage has prevented it from achieving independence This book looks at how the Kurdish and Iraqi quests for nationhood have led to the transformation of Iraqi Kurdistan into an unrecognised quasi state and the devolution of the Iraqi state into a recognised quasi state This is done by examining the protracted Iraqi Kurdish conflict and by analysing the contradictions and incompatibilities between the two different nationalisms Iraqi and Kurdish The author explains that Kurds as a nation without a state have their own nationhood project which is in opposition to the Iraqi nationhood project Each has its own identity loyalty and sovereignty The book answers the question as to how the Kurdish quest for nationhood has been treated by successive Iraqi regimes Furthermore it fills in the literary gaps which exist in relation to the Iraqi Kurdish conflict by specifying and categorising the cardinal conditions that drive ethnic and nationalist conflicts which lead to the creation of separatist entities Drawing upon a vast amount of untapped Kurdish and Arabic primary sources the book draws on prominent theories on nation states and quasi states It will particularly appeal to students and scholars of international relations political theory and Middle Eastern Studies      **The Kurdish Question: Identity, Representation and the Struggle for Self- Determination** , 2015-07-15 The book examines

several models which have been advocated for a workable and acceptable solution to the Kurdish problem which would be absolutely necessary for stability in the West Asian region The book evaluates how the more than two decade long experience of Kurdish self rule in a democratic framework in Iraqi Kurdistan affects the debate over the other Kurdish regions in West Asia With Turkey s European Union accession process contributing to the opening of the political space to ethno nationalism there is a need for a non military solution to the Kurdish issue The book analyses the role of Kurdish diaspora which plays a significant part in placing the Kurdish question on the European political agenda It also examines the role of the Kurds in the aftermath of the Arab Spring and the changing geopolitics in the region Now the Kurds maintain the strongest platform in battling against the ISIS terrorists

**The Kurdish Movement in Turkey** Elsa Tulin Sen, 2025-08-21 This book examines the Kurdish movement in the context of total social movement theory First tracing its origins as a conventionally nationalist movement Elsa Sen draws upon Alan Touraine s concept of a total social movement to argue that from 2000 to 2015 the Kurds in Turkey pursued a policy of engaging in a peace process channeling energy into civil society activism and electoral campaigns and promoting an inclusive understanding of national identity for all the components of Turkish society not just the Kurds in a hypothetically fully functioning democracy Both theoretically informed and drawing upon empirical research in the form of interviews with Kurdish and Turkish activists non activists and political representatives the book provides a new perspective on contemporary Kurdish politics as oscillating between nationalist and social movement paradigms with the recent decline of the latter due to the resumption of military action by the Turkish state and the Kurdistan Workers Party after 2015 Iraq since the Invasion Keiko Sakai, Philip Marfleet, 2020-07-15 This book addresses the complex events and unexpected outcomes of military intervention by the United States and its allies in Iraq in 2003 Considering the long term outcomes of the intervention this volume examines economic collapse societal disorder and increased regional conflict in Iraq The book assesses the means by which American strategists imposed a new political order generalising corruption sectarian preference and ethnic cleansing and stimulating mass population movements in and from Iraq Mobilising a multidisciplinary perspective the book explores the rise and fall of Iraq s confessional leaders the emergence of a popular movement for reform and the demands of young radicals focused upon revolutionary change The product of years of intensive research by Iraqis and international scholars Iraq since the Invasion considers how an initiative designed to produce regime change favourable to the United States and its allies brought unprecedented influence for Iran both in Iraq and the wider Gulf region

It analyses events in Kurdistan and the impacts of change on relations between Iraq and its neighbours. *Nationalism and Islamism in the Kurdistan Region of Iraq* Mohammad Salih Mustafa, 2020-11-29 Exploring a new political phenomenon in the Middle East, this book studies the reconciliation of nationalism and Islamism by Islamic political parties in the context of nation states. Islamism in Kurdistan has become significantly framed by the politics of nationalism. Although the concept of religious nationalism has been discussed substantially before, this work highlights a new brand of religious nationalism that has emerged as a result of intertwining nationalism and Islamism. The focus of this study is on the development of religious nationalism in the continuously tumultuous region of the Middle East. The volume investigates whether Islamism in Kurdistan is limited by the politics of nationalism, which is an accentuated example for the whole Middle East region. By looking at the Kurdistan Islamic Union (KIU), the research studies Islamism in the Kurdistan Region to elaborate on this new type of politics. This is essentially due to the absence of a politically recognised nation state which renders Kurds to be particularly susceptible to various manifestations of nationalism. Offering an account on the spread of the Muslim Brotherhood in the Kurdistan Region, this original research on Kurdish nationalism will be a key text for students and researchers interested in nationalism, Islamism and Middle East politics.

**Kurds and Yazidis in the Middle East** Günes Murat Tezcür, 2021-01-28 The diversity of Kurdish communities across the Middle East is now recognized as central to understanding both the challenges and opportunities for their representation and politics. Yet little scholarship has focused on the complexities within these different groups and the range of their experiences. This book diversifies the literature on Kurdish Studies by offering close analyses of subjects which have not been adequately researched and in particular by highlighting the Kurds' relationship to the Yazidis. Case studies include the political ideas of Ehmede Xani, the father of Kurdish nationalism; Kurdish refugees in camps in Iraq; the perception of the Kurds by Armenians in the late Ottoman Empire and the Turks in modern Western Turkey; and the important connections and shared heritage of the Kurds and the Yazidis, especially in the aftermath of the 2014 ISIS attacks. The book comprises the leading voices in Kurdish Studies and combines in-depth empirical work with theoretical and conceptual discussions to take the debates in the field in new directions. The study is divided into three thematic sections to capture new insights into the heterogeneous aspects of Kurdish history and identity. In doing so, contributors explain why we need to pay close attention to the shifting identities and the diversity of the Kurds and what implications this has for Middle East Studies and Minority Studies more generally.
