Oil, Democracy, and Development in Africa John R. Heilbrunn, 2014-04-21 Oil Democracy and Development in Africa presents an optimistic analysis of the continent's oil producing states With attention to the complex histories the interactions of key industry actors and policy makers and the goals of diverse groups in society this contribution fills a gap in the literature on resource abundant countries John R Heilbrunn presents a positive assessment of circumstances in contemporary African oil exporters The book demonstrates that even those leaders who are among the least accountable use oil revenues to improve their citizens living standards if only a little bit As a consequence African oil producers are growing economically and their people are living under increasingly democratic polities Heilbrunn thus calls for a long overdue reassessment of the impact of hydrocarbons on developing economies

Empires Michael Doyle, 2018-09-05 Although empires have shaped the political development of virtually all the states of the modern world imperialism has not figured largely in the mainstream of scholarly literature This book seeks to account for the imperial phenomenon and to establish its importance as a subject in the study of the theory of world politics Michael Doyle believes that empires can best be defined as relationships of effective political control imposed by some political societies those called metropolises on other political societies called peripheries To build an explanation of the birth life and death of empires he starts with an overview and critique of the leading theories of imperialism Supplementing theoretical analysis with historical description he considers episodes from the life cycles of empires from the classical and modern world concentrating on the nineteenth century scramble for Africa He describes in detail the slow entanglement of the peripheral societies on the Nile

and the Niger with metropolitan power the survival of independent Ethiopia Bismarck's manipulation of imperial diplomacy for European ends the race for imperial possession in the 1880s and the rapid setting of the imperial sun Combining a sensitivity to historical detail with a judicious search for general patterns Empires will engage the attention of social scientists in many disciplines

Identities, Histories and Values in Postcolonial Nigeria Adeshina Afolayan, 2021-02-03

Postcolonial Nigeria has been the subject of many literatures that identify and interrogate the many issues and problems that had made it near impossible for Nigerians to achieve the anticolonial aspirations that gave birth to independent Nigeria The rationale for this volume is to situate the thematic inquiry into the problematic of postcolonial Nigerian within the ambit of the humanities and its concerns These thematic issues include identity configurations aesthetics philosophical reflections linguistic dynamics sociological framings and so on The objective of the volume is to enable scholars and students to have new insights and arguments about possibilities that postcoloniality throws up for rethinking the Nigerian state and society

Britain and International Law in West Africa Inge Van Hulle, 2020-10-22

Africa often remains neglected in studies that discuss the historical relationship between international law and imperialism during the nineteenth century When it does feature focus tends to be on the Scramble for Africa and the treaties concluded between European powers and African polities in which sovereignty and territory were ceded Drawing on a wide range of archival material Inge Van Hulle brings a fresh new perspective to this traditional narrative She reviews the use and creation of legal instruments that expanded or delineated the boundaries between British jurisdiction and African communities in West Africa and uncovers the practicality and flexibility with which international legal discourse was employed in imperial contexts This legal experimentation went beyond treaties of cession and also encompassed commercial treaties the abolition of the slave trade extraterritoriality and the use of force The book argues that by the 1880s the legal techniques that were fashioned in the language of international law in West Africa had largely developed their own substantive characteristics Legal ordering was not done in reference to adjudication before Western courts or the writings of Western lawyers but in reference to what was deemed politically expedient and practically feasible by imperial agents for the preservation of social peace commercial interaction and humanitarian agendas

Protection and Empire Lauren Benton, Adam Clulow, Bain Attwood, 2017-11-02

For five centuries protection has provided a basic currency for organising relations between polities Protection underpinned sprawling tributary systems permeated networks of long distance trade reinforced claims of royal authority in distant colonies and structured treaties Empires made routine use of protection as they extended their influence projecting authority over old and new subjects forcing weaker parties to pay them for safe conduct and sometimes paying for it themselves The result was a fluid politics that absorbed both the powerful and the weak while giving rise to institutions and jurisdictional arrangements with broad geographic scope and influence This volume brings together leading scholars to trace the long history of protection across empires in Asia Africa Australasia Europe and the Americas Employing a global lens it offers an innovative

way of understanding the formation and growth of empires and uncovers new dimensions of the relation of empires to regional and global order Ouidah Robin Law,2005-10-25 Ouidah an African town in the Republic of Benin was the principal precolonial commercial center of its region and the second most important town of the Dahomey kingdom It served as a major outlet for the transatlantic slave trade Between the seventeenth and the nineteenth centuries Ouidah was the most important embarkation point for slaves in the region of West Africa known to outsiders as the Slave Coast This is the first detailed study of the town s history and of its role in the Atlantic slave trade Ouidah is a well documented case study of precolonial urbanism of the evolution of a merchant community and in particular of the growth of a group of private traders whose relations with the Dahomian monarchy grew increasingly problematic over time *Women Writing Home, 1700-1920* Susan Clair Imbarrato,2024-07-31 Assembles a range of women s letters from the former British Empire These letters written home are not only historical sources they are also representations of the state of the Empire in far off lands sent home to Britain and occasionally other centres established as home The Oxford Handbook of Nigerian History Toyin Falola,Matthew M. Heaton,2022 Thirty six chapters covering the history of Nigeria from prehistoric times to the twenty first century Accessible overviews of both the political narrative as well as the deeper histories of social organization identity formation and inter group relationships cutting edge analysis of key themes from highly respected scholars in a single forward facing volume Book jacket
