When and How the Arabs and Muslims Immigrated to the Land of Israel The first volume deals with 640 1914 and brings evidence that most Palestinians are descendants of immigrants who came to the country from Arab and Muslim countries in small numbers during a slow process over hundreds of years and between the end of the nineteenth century and First World War their number grew by immigrant workers This volume brings evidence that under the British Mandate rule 1918 1948 waves of Arab Muslim immigrant workers entered the country illegally because of the British policy to ignore illegal immigration The British mandate government actually ordered the Transjordan army responsible for controlling the borders to ignore illegal immigration Also the British Army brought Arab workers from Egypt Syria and Lebanon to build and work in their camps The economic and employment opportunities created by the Zionist Movement Jewish investors and immigrants Christian organizations and the British Mandate in the Land of Israel drew an increasing number of Arab immigrant workers These opportunities were much better than those they had in their home countries

**The Lies of the Land** Steven Conn, 2024-05-31 A piercing unsentimental history that boldly challenges the idea of a rural American crisis The New Yorker It seems everyone has an opinion about rural America Is it gripped in a tragic decline Or is it on the cusp of a glorious revival Is it the key to understanding America today Steven Conn argues that we're missing the real question Is rural America even a thing No says Conn who believes we see only what we want to see in the lands beyond the suburbs fantasies about moral or backward communities simpler or repressive living and what it means to be authentically or wrongheadedly American If we want to build a better future Conn argues we must accept that these visions don't exist and never did In *The Lies of the Land* Conn shows that rural America so often characterized as in crisis or in danger of being left behind has actually been at the center of modern American history shaped by the same forces as everywhere else in the country militarization industrialization corporatization and suburbanization Examining each of these forces in turn Conn invites us to dispense with the lies and half truths we've believed about rural America and to pursue better solutions to the very real challenges shared all across our nation How does a land tell lies Conn's premise is that our enduring image of rural America is in large part illusory also since most people in America about 75% now live in urban areas he theorizes our perception of rural life gets distorted by idealistic visions which don't correspond to reality Dayton Daily News
