Part V provides a brief section on the genealogy of the three families connected with the Farm's history. God and the Land : The Metaphysics of Farming in Hesiod and Vergil Stephanie A. Nelson Boston University, 1998-05-18 In this pathbreaking book which includes a powerful new translation of Hesiod's *Works and Days* by esteemed translator David Grene, Stephanie Nelson argues that a society's vision of farming contains deep indications about its view of the human place within nature and our relationship to the divine. She contends that both Hesiod in the *Works and Days* and Vergil in the *Georgics* saw farming in this way and so wrote their poems not only about farming itself but also about its deeper ethical and religious implications. Hesiod, Nelson argues, saw farming as revealing that man must live by the sweat of his brow and that good for human beings must always be accompanied by hardship. Within this vision, justice, competition, cooperation, and the need for labor take their place alongside the uncertainties of the seasons and even of particular lucky and unlucky days to form a meaningful whole within which human life is an integral part. Vergil, Nelson argues, deliberately modeled his poem upon the *Works and Days* and did so in order to reveal that his is a very different vision. Hesiod saw the hardship in farming; Vergil sees its violence as well. Farming is for him both our life within nature and also our battle against her. Against the background of Hesiod's poem, which found a single meaning for human life, Vergil thus creates a split vision and suggests that human beings may be radically alienated from both nature and the divine. Nelson argues that both the *Georgics* and the *Works and Days* have been misread because

scholars have not seen the importance of the connection between the two poems and because they have not seen that farming is the true concern of both farming in its deepest and most profoundly unsettling sense      **The Land's end, Kynance cove, and other poems** John Harris,1858      *The Land's End, Kynance Cove, and Other Poems* John HARRIS (a Cornish Miner.),1858      **Silence in the Land of Logos** Silvia Montiglio,2010-05-17 In ancient Greece the spoken word connoted power whether in the free speech accorded to citizens or in the voice of the poet whose song was thought to know no earthly bounds But how did silence fit into the mental framework of a society that valued speech so highly Here Silvia Montiglio provides the first comprehensive investigation into silence as a distinctive and meaningful phenomenon in archaic and classical Greece Arguing that the notion of silence is not a universal given but is rather situated in a complex network of associations and values Montiglio seeks to establish general principles for understanding silence through analyses of cultural practices including religion literature and law Unlike the silence of a Christian before an ineffable God which signifies the uselessness of words silence in Greek religion paradoxically expresses the power of logos for example during prayer and sacrifice it serves as a shield against words that could offend the gods Montiglio goes on to explore silence in the world of the epic hero where words are equated with action and their absence signals paralysis or tension in power relationships Her other examples include oratory a practice in which citizens must balance their words with silence in very complex ways in order to show that they do not abuse their right to speak Inquiries into lyric poetry drama medical writings and historiography round out this unprecedented study revealing silence as a force in its own right      **The Great War, The Waste Land and the Modernist Long Poem** Oliver Tearle,2019-04-04 The Great War The Waste Land and the Modernist Long Poem explores how cultural responses to the trauma of the First World War found expression in the form of the modernist long poem Beginning with T S Eliot s The Waste Land Oliver Tearle reads that most famous example of the genre in comparison with lesser known long poems such as Hope Mirrlees s Paris A Poem Richard Aldington s A Fool I the Forest and Nancy Cunard s Parallax As well as presenting a new history of this neglected genre the book examines the ways in which the modernist long poem represented the seminal literary form for grappling with the crises of European modernity in the wake of World War I      Of the Land Will Stovall,2022-02-01 Of the Land presents a series of prints and poems that follow the life and work of master silkscreen printer Lou Stovall as he was developing his unique techniques in the 1970s a period of jazz protest and prolific art production in Washington DC Stovall s influence on the silkscreen medium and art community will be part of his lasting legacy      **The Poet and the World** Joachim Yeshaya,Elisabeth Hollender,Naoya Katsumata,2019-07-08 A collection of seventeen essays on pre modern Hebrew poetry in honor of Wout van Bekkum The articles in this volume all seek to examine how the religious cultural and social context in which the poet functioned impacted on and is visible either explicitly or more elliptically in their poetical oeuvre For this purposes a broad understanding of world has been accepted including both the natural world and the constructed one society culture language as well as the

spiritual and emotional world History a pillar of the man made constructed world has been used to determine the boundaries from Late Antiquity to the Middle Ages and in instances where the topic connects to older traditions to Early Modern Judaism i e pre modern Hebrew and Aramaic poetry The articles in this volume in the breadth of their temporal and spatial range and their multiplicity of approaches and methodologies highlight the richness of contemporary scholarship on Hebrew poetry The volume invites the reader to engage with this astonishing body of poetry while providing a glimpse into the world of the payanim and the cultures and societies from which they drew their inspiration and to which they made such important contributions **The land we live in, a pictorial and literary sketch-book of the British empire** British empire, 1847
