Seasoned Authors for a New Season Louis Filler, 1980 This collection of essays probes the values in a variety of authors who have had in common the fact of popularity and erstwhile reputation Why were they esteemed Who esteemed them And what has become of their reputations to readers to the critic himself No writer here has been asked to justify the work of his subject and reports and conclusions about this wide variety of creative writers vary sometimes emphasizing what the critic believes to be enduring qualities in the subject in several cases finding limitations in what that writer has to offer us today

The Columbia Guide to Contemporary African American Fiction Darryl Dickson-Carr, 2005-12-06 In both the literal and

metaphorical senses it seemed as if 1970s America was running out of gas. The decade not only witnessed long lines at gas stations but a citizenry that had grown weary and disillusioned. High unemployment, runaway inflation, and the energy crisis caused in part by U.S. dependence on Arab oil characterized an increasingly bleak economic situation. As Edward D. Berkowitz demonstrates, the end of the postwar economic boom, Watergate, and defeat in Vietnam led to an unraveling of the national consensus. During the decade, ideas about the United States, how it should be governed, and how its economy should be managed changed dramatically. Berkowitz argues that the postwar faith in sweeping social programs and a global U.S. mission was replaced by a more skeptical attitude about government's ability to positively affect society. From Woody Allen to Watergate, from the decline of the steel industry to the rise of Bill Gates, and from Saturday Night Fever to the Sunday morning fervor of evangelical preachers, Berkowitz captures the history, tone, and spirit of the seventies. He explores the decade's major political events and movements, including the rise and fall of détente, congressional reform, changes in healthcare policies, and the hostage crisis in Iran. The seventies also gave birth to several social movements and the rights revolution, in which women, gays, and lesbians, and people with disabilities all successfully fought for greater legal and social recognition. At the same time, reaction to these social movements, as well as the issue of abortion, introduced a new facet into American political life. The rise of powerful, politically conservative religious organizations and activists. Berkowitz also considers important shifts in American popular culture, recounting the creative renaissance in American film, as well as the birth of the Hollywood blockbuster. He discusses how television programs such as *All in the Family* and *Charlie's Angels* offered Americans both a reflection of and an escape from the problems gripping the country.

The Landsmen Peter Martin, 1977 *The Landsmen* is a novel of Jewish American roots. Set in the village of Golinsk in Czarist Russia at the end of the nineteenth century, it evokes life under a system of massively cruel anti-Semitism. The word *landsman* in Yiddish means people from the same place, but in this novel it conveys the larger meaning of brothers suffering in faith in humanity. Peter Martin wrote the novel from the memories of the old people he knew as a boy in Brooklyn. The result is a work of fiction that is rich in a sense of time and place. The effect is bardic. Each section of the novel is narrated by one of nine characters: Yeersel the tailor, Maisha the religion teacher, Laib the musician, Shim his brother, Nochim the dairyman, Berel the watercarrier, Laib Shmul the butcher, Tzippe Sora the distiller, and Mottel the outcast. Some migrated to America, some died in Golinsk. First published in 1952, *The Landsmen* was the first volume of a projected trilogy and was written to establish a sense of Jewish identity as the background for a large fictional examination of Jewish American life. Although *The Landsmen* was well received and was nominated for the Pulitzer Prize, it was never republished. The second volume of the trilogy, *The Building*, appeared in 1960. Peter Martin died in 1961.

Drawing on modern studies of rhetoric and the concept of the Trickster, the author examines Herman Melville, Mark Twain, and Nathanael West as creators of a fictive experience centered in deceptive or problematic transactions of confidence. The model of a confidence game, suggested by the writers' own thematic preoccupations, permits an analysis of the social motivations inherent in the
