Systems Arie S. Issar, 2004-08-05 It is now widely accepted that increasing concentrations of greenhouse gases in the atmosphere are causing higher global atmospheric temperatures However there is still a great deal of uncertainty about the

likely effects of such a temperature rise on climate and even more about the impacts of climate change and variability on the world's hydrological regimes and socio-economic systems. Studying the effects of climate variability in the past can give clues as to possible future effects. This volume provides a comprehensive review of the effects of climate variability on hydrological and human systems in the Holocene the last 10 000 years in various parts of the world. The book concentrates on the regions bordering the Mediterranean Sea western and central Europe China Japan West and South Africa and the southwestern USA. This book will be of value to researchers and professionals in hydrology climatology geology and historical geography.

Jack Coombs John P. Tierney,2014-01-10 Jack Coombs rose to deadball era stardom as the ace of Connie Mack's Athletics winners of back to back world championships in 1910 and 1911. One of the few players of his day to have graduated from college Coombs debuted for the Athletics in 1906 fresh from Colby College. Within a few years he was one of the best and best known pitchers in baseball leading the majors in victories in consecutive seasons. But then in 1913 Coombs contracted typhoid fever a disease that cost the right hander two seasons at the peak of his career. And while he battled his way back pitching well in his comeback season of 1915 and then leading the Brooklyn Robins to the World Series in 1916 he was never again the dominant pitcher he had been. Coombs went on to a long career as a coach for Duke University and wrote one of the most highly regarded instructional books on baseball ever published.
