Bronner,2021-11-21 Chains carved from a single block of wood cages whittled with wooden balls rattling inside all made with just a pocketknife are among our most enduring folk designs Who makes them and why what is their history what do they mean for their makers for their viewers for our society Simon J Bronner portrays four wood carvers in southern Indiana men who had been transplanted from the rural landscapes of their youth to industrial towns After retiring they took up a skill they remembered from childhood Bronner discusses how creativity helped these men adjust to change and how viewers responses to carving reflect their own backgrounds By recording the narratives of these men s lives the stories and anecdotes that laced their conversation Bronner finds new insight into the functions and symbolism of traditional craft Including anew illustrated afterword in which the author discusses recent developments in the carver s art this new edition will appeal to carvers scholars and anyone interested in traditional woodworking      Aging and the Aged Linna Funk Place,2019-03-13 This book introduces undergraduates to library research in the field of gerontology and focuses on the wide variety of sources available for research It covers physiological and psychological aspects of aging social aspects of aging and environmental aspects of aging      **Routledge Library Editions: Philosophy of Time** Various Authors,2021-03-05 Reissuing five works originally published between 1937 and 1991 this collection contains books addressing the subject of time from a mostly philosophic point of view but also of interest to those in the science and mathematics worlds These texts are brought back into print in this small set of works addressing how we think about time the history of the philosophy of time the measurement of time theories of relativity and discussions of the wider thinking about time and space among other aspects One volume is a thorough bibliography collating references on the subject of time across many disciplines      **The SAGE Handbook of Interview Research** Jaber F. Gubrium,James A. Holstein,Amir B. Marvasti,Karyn D. McKinney,2012-02-11 The second edition of this landmark volume emphasizes the dynamic interactional and reflexive dimensions of the research interview Contributors highlight the myriad dimensions of complexity that are emerging as researchers increasingly frame the interview as a communicative opportunity as much as a data gathering format The book begins with an overview of the history and conceptual transformations of the interview which is followed by chapters that discuss the main components of interview practice Taken together the contributions to the handbook encourage readers to simultaneously learn the frameworks and technologies of interviewing

and reflect on the epistemological foundations of the interview craft The handbook has been updated to address recent developments especially in qualitative interviewing Twenty six chapters are completely new the remaining twelve chapters have been substantially revised to give readers access to the state of the art of interview research Three entirely new sections include Logistics of Interviewing Self and Other in the Interview and Ethics of the Interview **Social Forces and Aging** Robert C.
