Rick MATHIESON

The Killer Brand:

The Killer Brand William Colt MacDonald, 1953 **Killer Brands** Frank Lane, 2007-04-12 In today's saturated marketplace consumers are inundated with too many choices. Only the strongest brands will capture attention and only those Killer Brands will beat the competition. The losers eventually disappear from the marketplace and the market share and profits go to the victor. Branding expert Frank Lane presents the three simple but essential principles of brand power to launch any successful product. Focus, Alignment, and Linkage represent an entirely new way to look at creating and marketing the Killer Brand. Focus is the compelling promise that a product is unique. Alignment is the marketing actions that are consistent with this promise. Linkage is the guarantee of the product design, packaging, and brand name. Dominate the marketplace with the help of Frank Lane and Killer Brands.

Brands and Branding Stephen Brown, 2016-08-17 A fun and humorous introductory book written in Stephen Brown's entertaining and highly distinctive style that introduces curious readers to the key components of brands and helps them to begin to make sense of them: what they are, what they do, why, and how. Using plenty of examples and references drawn from a wide range of brands such as Amazon, Apple, Google, Gucci, Nike, Nintendo, Starbucks, Swatch, and The Worst Hotel in the World. With 3,000 branding books published each year, why would you or your students want to read Brands? Branding Here are seven reasons why. It's introductory, aimed at undergraduate students or postgrads without a bachelor degree in business and assumes nothing more than readers' awareness of high profile brands such as Coca-Cola, Microsoft, and Chanel. It's indicative, focusing on the basics and thus being a more reliable revision aid than Lucozade. It's immersive, taking readers on a journey and working on the assumption that they have smartphones or tablet computers to hand. The print text links to images, articles, and academic publications to give emphasis and context where appropriate. It's inclusive, considering articles and reports but also blogs, novels, newspapers, reviews, social media, and other sources. It's irreverent, branding is not always a deadly serious business. It's intimate, Stephen speaks to you directly and together you will pick your way through the sometimes weird and unfailingly wonderful world of brands and branding using examples rather than abstract ideas to illustrate points. It's inspirational, celebrating the curious and successful stories of brands from Cillit Bang to Cacharel. Suitable for first and second year marketing or advertising students and for those new to or interested in branding and who are keen to know more.
