The Land And People Of Cambodia:

The Land and People of Cambodia David Porter Chandler, 1991 Introduces the history geography people culture government and economy of Cambodia *The Land Grabbers* Fred Pearce, 2012-05-29 How Wall Street Chinese billionaires oil sheiks and agribusiness are buying up huge tracts of land in a hungry crowded world An unprecedented land grab is taking place around the world Fearing future food shortages or eager to profit from them the world s wealthiest and most acquisitive countries corporations and individuals have been buying and leasing vast tracts of land around the world The scale is astounding parcels the size of small countries are being gobbled up across the plains of Africa the paddy fields of Southeast Asia the jungles of South America and the prairies of Eastern Europe Veteran science writer Fred Pearce spent a year circling the globe to find out who was doing the buying whose land was being taken over and what the effect of these massive land deals seems to be *The Land Grabbers* is a first of its kind expos that reveals the scale and the human costs of the land grab one of the most profound ethical environmental and economic issues facing the globalized world in the twenty first century The corporations speculators and governments scooping up land cheap in the developing world claim that industrial scale farming will help local economies But Pearce s research reveals a far more troubling reality While some mega farms are ethically run all too often poor farmers and cattle herders are evicted from ancestral lands or cut off from water sources The good jobs promised by foreign capitalists and home governments alike fail to materialize Hungry nations are being forced to export their food to the wealthy and corporate potentates run fiefdoms oblivious to the country beyond their fences Pearce s story is populated with larger than life characters from financier George Soros and industry tycoon Richard Branson to Gulf state sheikhs Russian oligarchs British barons and Burmese generals We discover why Goldman Sachs is buying up the Chinese poultry industry what Lord Rothschild and a legendary 1970s asset stripper are doing in the backwoods of Brazil and what plans a Saudi oil billionaire has for Ethiopia Along the way Pearce introduces us to the people who actually live on and live off of the supposedly empty land that is being grabbed from Cambodian peasants victimized first by the Khmer Rouge and now by crony capitalism to African pastoralists confined to ever smaller tracts Over the next few decades land grabbing may matter more to more of the planet s people than even climate change It will affect who eats and who does not who gets richer and who gets poorer and whether agrarian societies can exist outside corporate control It is the new battle over who owns the planet **Ethiopia: The Land, Its People, History and Culture** Yohannes K.

Mekonnen, A general introduction to Ethiopia and to smaller exttent Eritrea *World and Its Peoples* , 2007 Most of what is known about the outside world remains superficial and stereotypical *World and Its Peoples* Eastern and Southern Asia brings a long rich story to light about ethnic groups the impact of terrain and natural resources and the influence of history This unique reference work maps out how the nations of the modern world became what they are today through photographs of the geography and people of foreign lands through discussion of ancient and contemporary works of art and events and

through scores of maps detailing geographical features historic and modern places natural habitats rainfall locations of ethnic and linguistic groups natural resources and centers of industry and transportation No single resource assembles such comprehensive insight into the world and the people who live in it *Land and Cultural Survival* Jayantha Perera,2009-09-01 Development in Asia faces a crucial issue the right of indigenous peoples to build a better life while protecting their ancestral lands and cultural identity An intimate relationship with land expressed in communal ownership has shaped and sustained these cultures over time But now public and private enterprises encroach upon indigenous peoples traditional domains extracting minerals and timber and building dams and roads Displaced in the name of progress indigenous peoples find their identities diminished their livelihoods gone Using case studies from Cambodia India Malaysia and the Philippines nine experts examine vulnerabilities and opportunities of indigenous peoples Debunking the notion of tradition as an obstacle to modernization they find that those who keep control of their communal lands are the ones most able to adapt **Land and Post-Conflict Peacebuilding** Jon Unruh,Rhodri Williams,2013-07-18 Claims to land and territory are often a cause of conflict and land issues present some of the most contentious problems for post conflict peacebuilding Among the land related problems that emerge during and after conflict are the exploitation of land based resources in the absence of authority the disintegration of property rights and institutions the territorial effect of battlefield gains and losses and population displacement In the wake of violent conflict reconstitution of a viable land rights system is crucial an effective post conflict land policy can foster economic recovery help restore the rule of law and strengthen political stability But the reestablishment of land ownership land use and access rights for individuals and communities is often complicated and problematic and poor land policies can lead to renewed tensions In twenty one chapters by twenty five authors this book considers experiences with and approaches to post conflict land issues in seventeen countries and in varied social and geographic settings Highlighting key concepts that are important for understanding how to address land rights in the wake of armed conflict the book provides a theoretical and practical framework for policy makers researchers practitioners and students Land and Post Conflict Peacebuilding is part of a global initiative to identify and analyze lessons in post conflict peacebuilding and natural resource management The project has generated six edited books of case studies and analyses with contributions from practitioners policy makers and researchers Other books in the series address high value resources water livelihoods assessing and restoring resources and governance *Native Peoples of the World* Steven L. Danver,2015-03-10 This work examines the world s indigenous peoples their cultures the countries in which they reside and the issues that impact these groups *State of the World's Minorities and Indigenous Peoples 2011* Joanna Hoare,2011-07-06 In the year that saw the establishment of UN Women the new United Nations entity for gender equality and women s empowerment minority and indigenous women continued to face violence discrimination and marginalization stemming both from their identity as women and as members of disadvantaged minority groups In Latin America despite the

election of women as heads of state in several countries African descendant and indigenous women remain virtually invisible in public and political life They are also the population group that has borne the brunt of armed conflict in the region subjected to rape and sexual violence As elsewhere they have little hope of redress against those who assaulted them In Europe and Oceania migrant women face economic and social marginalization and are often unable to access support services because of their immigration status leaving them trapped in abusive relationships In 2010 women belonging to Muslim minorities in the global North choosing to wear the face veil also faced increasing pressure with bans under discussion in many countries In the Middle East and Africa minority and indigenous women continue to be subjected to religious and customary legal systems that deny them their rights while Iraqi refugee women many of whom belong to religious minorities elsewhere in the Middle East are increasingly vulnerable to trafficking and sexual exploitation In Asia sexual violence against women has again been used as a weapon against minority women while land seizures are resulting in further economic marginalization of indigenous groups This year's edition of State of the World's Minorities and Indigenous Peoples presents an overview of the situation of minority and indigenous women today and includes Discussions of gender based violence and armed conflict including the violence that indigenous and minority women experience within their own communities and the difficulties that they face in accessing justice and support from outside Consideration of the lack of progress made towards achieving the Millennium Development Goals for minority and indigenous women with special focus on reproductive rights and maternal mortality Interviews and special reports on trafficking intersectional discrimination land seizures and women's political representation Overviews of the human rights situation of minorities and indigenous peoples in every major world region Peoples Under Threat 2011 MRG's unique statistical analysis and ranking of countries An invaluable reference for policy makers academics journalists and everyone who is interested in the human rights situation of minorities and indigenous peoples around the world **The Global Land Grab** Annelies Zoomers, Mayke Kaag, 2014-02-13 The last two years have seen a huge amount of academic policy making and media interest in the increasingly contentious issue of land grabbing the large scale acquisition of land in the global South It is a phenomenon against which locals seem defenceless and one about which multilateral organizations such as the World Bank as well as civil society organizations and action NGOs have become increasingly vocal This in depth and empirically diverse volume taking in case studies from across Africa Asia and Latin America takes a step back from the hype to explore a number of key questions Does the global land grab actually exist If so what is new about it And what beyond the immediately visible dynamics and practices are the real problems A comprehensive and much needed intervention on one of the most hotly contested but little understood issues facing countries of the South today **From the Land of Shadows** Khatharya Um, 2015-10-16 In a century of mass atrocities the Khmer Rouge regime marked Cambodia with one of the most extreme genocidal instances in human history What emerged in the aftermath of the regime's collapse in 1979 was a nation fractured by death and dispersal It is estimated

that nearly one fourth of the country's population perished from hard labor disease starvation and executions Another half million Cambodians fled their ancestral homeland with over one hundred thousand finding refuge in America From the Land of Shadows surveys the Cambodian diaspora and the struggle to understand and make meaning of this historical trauma Drawing on more than 250 interviews with survivors across the United States as well as in France and Cambodia Khatharya Um places these accounts in conversation with studies of comparative revolutions totalitarianism transnationalism and memory works to illuminate the pathology of power as well as the impact of auto genocide on individual and collective healing Exploring the interstices of home and exile forgetting and remembering From the Land of Shadows follows the ways in which Cambodian individuals and communities seek to rebuild connections frayed by time distance and politics in the face of this injurious history
