Inequality in the 21st Century David

Grusky,Jasmine Hill,2018-05-15 This book provides selections from the seminal works of Karl Marx Max Weber W E B Du Bois and Charlotte Perkins Gilman that reveal some of the reasons why class race and gender inequalities have proven very adaptive and can flourish even today in the 21st century **Late Style and its Discontents** Gordon McMullan,Sam Smiles,2016-09-01 Late style is a critical term routinely deployed to characterise the work of selected authors composers and creative artists as they enter their last phase of production often but not only in old age Taken at face value this terminology merely points to a chronological division in the artist s oeuvre late being the antonym of early or the third term in the triad early middle late However almost from its inception the idea of late style or late work has been freighted with aesthetic associations and expectations that promote it as a special episode in the artist s creative life Late style is often characterised as the imaginative response made by exceptional talents to the imminence of their death In their confrontation with death creative artists critics claim produce work that is by turns a determination to continue while strength remains a summation of their life s work and a radical vision of the essence of their craft And because this creative phenomenon is understood as primarily an existential response to a common fate so late style is understood as something that transcends the particularities of place time and medium Critics seeking to understand late work regularly invoke the examples of Titian Goethe and Beethoven as exemplars of what constitutes late work proposing that something unites the late style of authors composers and creative artists who otherwise would not be bracketed together and that lateness per se is a special order of creative work The essays in this collection resist this position Ranging across literature the visual arts music and scientific work the material assembled here looks closely at the material biographical and other contexts in which the work was produced and seeks both to question the assumptions surrounding late style and to prompt a more critical understanding of the last works of writers artists and composers *Streaming by the Rest of Us* Mia Consalvo,Marc Lajeunesse,Andrei Zanesu,2025-02-18 An in depth investigation of the Twitch streamers who make up the largest population on the platform those streaming to small audiences or even no one The vast majority of people who stream themselves playing videogames online do so with few or no viewers In *Streaming by the Rest of Us* Mia Consalvo Marc Lajeunesse and Andrei Zanesu investigate who they are why they do so and why this form of leisure activity is important to understand Unlike the esports athletes and streaming superstars who receive the lion s share of journalistic and academic attention microstreamers are not in it for the money and barely have an audience In this the first book dedicated to the latter group the authors gather interviews from dozens of microstreamers from 2017 to 2019 to discuss their lives struggles hopes and goals For readers interested in livestreaming and Twitch in particular the book rethinks the medium s history through accounts of the everyday uses of webcams with particular attention to notions of liveness and authenticity These two concepts have become calling cards for the videogame livestreaming platform and underlie streamer motivations the construction of their practices whether casual serious or anywhere in between and the complex metas that take shape over time The book also looks at the

authors own practices of livestreaming focusing on what can be gained through experiencing the lived reality of the practice Finally the authors explain how Twitch s platform studied from 2017 2023 informs how streamers structure their every day and how corporate ideologies bleed into real world spaces like TwitchCon
